HEDGED/UNHEDGED SHARE CLASSES

If the share classes are hedged:

I/we acknowledge that where the Share Classes are shown as 'hedged', they will be hedged against exchange rate fluctuation risks which arise between the denominated currency of the Share Class and the Base Currency of the Fund. I/we further understand that the successful execution of this hedging strategy cannot be assured. I/we also understand that other Share Classes within the Fund may engage in currency hedging transactions in order to hedge currency exposure in respect of that Share Class. Although the Company has taken steps to ensure that the risk of contagion between Share Classes is mitigated by ensuring that the additional risk introduced to the Fund through the use of a derivative overlay is borne by the Shareholders in that Class, this risk cannot be fully eliminated.

If the share classes are not hedged:

I/we hereby acknowledge that where the Share Classes are shown as not hedged, the Share Classes will not be hedged against any exchange rate fluctuation risks/currency exposure arising as a result of the Share Class being denominated in a currency other than the Base Currency of the Fund. I/we also understand that a currency conversion will take place on subscriptions, redemptions, conversions and distributions at prevailing exchange rates and that the value of the Shares acquired by me shall be subject to exchange rate risk in relation to the Base Currency and in relation to the designated currencies of the underlying assets of the Fund. I/we further understand that other Classes of the Fund may engage in currency hedging transactions and that although the Company has taken steps to ensure that the risk of contagion between Classes is mitigated by ensuring that any additional risk introduced to the Fund as a result of the use of a derivative overlay is borne by the relevant Class only, this risk cannot be fully eliminated.

In addition, certain other entities, such as insurance company separate accounts and bank collective investment trust funds, are considered to hold plan assets if any of their interests are held by Benefit Plan Investors.
