Objectives and investment policy

The Fund is actively managed without reference to any benchmark. The Green Ash Onyx Fund is an open end investment fund incorporated in Luxembourg with daily liquidity. The Fund's objective is to achieve positive long-term returns over a wide variety of market conditions. The Fund's investment philosophy takes a macroeconomic approach which aims to identify the most attractive investment opportunities across global liquid capital markets. The Fund seeks to achieve these Investment objectives by investing in a wide range of asset

classes including equities, fixed income or variable-interest securities, derivatives, exchange traded funds, currencies, commodities and alternative asset classes. The Fund may invest up to 30% of its assets in transferable securities issued by entities domiciled in an emerging country. Furthermore, the Investment Manager may decide to hold up to 100% of the Fund's assets in cash and money market instruments. The Share Class does not make regular distributions.

Risk and reward profile

Risk profile

The Fund's risk and reward profile shows the variations in value an investment in this Fund would have undergone over the past five years, whereby simulated performance data is used in the case of missing history. The Fund's risk rating may change in the future. Please note, higher possible gains generally also mean higher possible losses. The lowest risk category does not mean that the Fund is risk free.

Why is the Fund in the specific category?

The risk level of an investment in different asset classes is mainly driven by its asset mix (e.g. equity, bonds and others), the investment markets and economic sectors, as well as allocation to currencies. This Fund has generally a diversified exposure to asset classes with lower as well as higher risks. The use of derivatives may lead to leverage and to an amplified reaction to market movements.

Are there any other particular risks?

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- Credit risk: Issuers of assets held by the Fund may not pay income or repay capital when due. Part of the Fund's investments may have considerable credit risk.
- Counterparty risk: Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default. The Subfund will endeavor to mitigate this risk by the receipt of financial collateral given as guarantees.
- Operational risk: Deficient processes, technical failures or catastrophic events may cause losses.
- Political and Legal risks: Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.

Charges

| One-off charges taken before or after the investment | |
|--|----------------|
| Entry charge | 5.00% |
| Exit charge | Not applicable |
| This is the maximum amount that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out. | |
| Charges taken from the Fund over a year | |
| Ongoing charge | 2.07% |
| Charges debited to the Fund under certain specific conditions | |
| Performance fee | Not applicable |

Charges debited to investors are used to pay for the cost of running the Fund, including marketing and distribution costs. These charges reduce the potential growth of the investment.

The **entry** and **exit charges** shown are the maximum figures that can be charged to the investor. Investors may obtain the fees effectively applied from their individual financial adviser or distributor.

For a maximum of 12 months from August 31, 2020, the **ongoing charges** figure is based on estimated expenses. From August 2021, the ongoing charges figure is based on last year's expenses for the year ending August 2021. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares/units in another collective investment undertaking.
