

This document provides key investor information about this fund ("Fund"). It is not marketing material. The information is required by law to help investors understand the nature and the risks of investing in this Fund. Investors are advised to read it so to make an informed decision about whether to invest.

Green Ash Sustainable Short Duration Credit Fund a Subfund of Woodman SICAV

Management Company
Share Class
ISIN

MultiConcept Fund Management S.A., Luxembourg
R H cap. GBP
LU2122350593

Objectives and investment policy

The Fund is actively managed without reference to any benchmark. The investment objective of the Green Ash Sustainable Short Duration is to achieve income and capital appreciation by investing in globally issued bonds and other debt securities that demonstrate environmental, social and governance (ESG) criteria as well as having a maximum legal maturity of 5 years and a maximum duration of 2.5. Securities can be denominated in any hard currency, however the Fund's non base, unhedged currency exposure cannot exceed the limit of 10%. The Fund invests directly and indirectly in debt and money market related eligible assets (including floating and fixed rate bonds); at least 55% of its net assets in investment grade securities and a maximum of 45% in high yield

securities. Moreover, the Fund may invest up to 25% of its assets in fixed income securities issued in emerging market countries. Furthermore, the Fund can invest up to 100% in bonds or treasury bills issued by supranational organizations and governments (OECD countries). The Fund's ESG investment strategy includes a combination of negative and factor based screening, as well engagement with management of the securities' issuers. In order to reach its objective, the Fund can also use structured products and derivative instruments to protect against movements in currencies and security prices for efficient portfolio management. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make regular distributions.

Risk and reward profile

Risk profile

The Fund's risk and reward profile shows the variations in value an investment in this Fund would have undergone over the past five years, whereby simulated performance data is used in the case of missing history. The Fund's risk rating may change in the future. Please note, higher possible gains generally also mean higher possible losses. The lowest risk category does not mean that the Fund is risk free.

Why is the Fund in the specific category?

Investments in bonds are affected by changes in interest rates, the size of the market segment, the currency allocation, the economic sector and the credit quality of the bonds. The Fund holds mainly investments with generally good credit quality. Also the Fund intends to avoid any currency risk. This Fund offers capital protection under the condition that the investment is held from the Fund's launch until maturity. Under normal circumstances the capital protection mechanism of the Fund is designed to ensure at least a payout of the initial offer price at maturity. Therefore, no losses on the initially invested capital are expected.

Are there any other particular risks?

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- **Credit risk:** Issuers of assets held by the Fund may not pay income or repay capital when due. Part of the Fund's investments may have considerable credit risk.
- **Liquidity risk:** Assets cannot necessarily be sold at limited cost in an adequately short timeframe. Part of the Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- **Counterparty risk:** Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default. The Subfund will endeavor to mitigate this risk by the receipt of financial collateral given as guarantees.
- **Operational risk:** Deficient processes, technical failures or catastrophic events may cause losses.
- **Political and Legal risks:** Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.

Charges

| One-off charges taken before or after the investment | |
|--|----------------|
| Entry charge | Not applicable |
| Exit charge | Not applicable |
| This is the maximum amount that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out. | |
| Charges taken from the Fund over a year | |
| Ongoing charge | 0.82% |
| Charges debited to the Fund under certain specific conditions | |
| Performance fee | Not applicable |

Charges debited to investors are used to pay for the cost of running the Fund, including marketing and distribution costs. These charges reduce the potential growth of the investment.

The **entry** and **exit charges** shown are the maximum figures that can be charged to the investor. Investors may obtain the fees effectively applied from their individual financial adviser or distributor.

For a maximum of 12 months from June 12, 2020, the **ongoing charges** figure is based on estimated expenses. From June 2021, the ongoing charges figure is based on last year's expenses for the year ending June 2021. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares/units in another collective investment undertaking.

Past performance

Performance disclaimer

Please note that performance in the past is not a reliable indicator of future results.
