SUMMARY

The main part of the Prospectus describes the nature of the Company, presents its general terms and conditions and sets out its management and investment parameters which apply to the Company as well as to the different Sub-Funds that compose the Company.

The investment policy of each Sub-Fund, as well as its specific features, is described in the Appendix attached to this Prospectus.

The Directors of the Company, whose names appear hereafter, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the importance of such information. The Directors accept responsibility accordingly.

The shares of the Company are offered solely on the basis of the information and representations contained in this Prospectus and any further information given or representations made by any person may not be relied upon as having been authorised by the Company or the Directors. Neither the delivery of this Prospectus nor the issue of shares shall under any circumstances create any implication that there has been no change in the affairs of the Company since the date hereof.

The information contained in this Prospectus will be supplemented by the financial statements and further information contained in the latest annual and semi-annual reports of the Company and the KIIDs, copies of which may be obtained free of charge from the registered office of the Company.

The Company is an open-ended investment company organised as a *Société d'Investissement à Capital Variable* (SICAV). The Company is registered under Part I of the 2010 Law (as defined below). The above registration does not require any Luxembourg authority to approve or disapprove either the adequacy or accuracy of this Prospectus or the investments held by the Company. Any representation to the contrary is unauthorised and unlawful.

The distribution of this Prospectus and the offering of shares in certain jurisdictions may be restricted and accordingly persons into whose possession of this Prospectus may come are required by the Company to inform themselves of and to observe any such restrictions.

This Prospectus does not constitute an offer or solicitation to any person in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it would be unlawful to make such offer or solicitation.

The Prospectus may be translated into other languages. To the extent that there is any inconsistency between this Prospectus and a translation thereof, the English-language Prospectus shall prevail, unless stipulated otherwise by the laws of any jurisdiction in which the Shares are sold.

United States: The Shares being offered hereby have not been and will not be registered under the U.S. Securities Act of 1933, as amended, (the "1933 Act") or the securities laws of any of the states of the United States. The Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended, nor under any other US federal laws. Therefore, the Shares may not be offered or sold directly or indirectly in the United States of America, except pursuant to an exemption from the registration requirements of the 1933 Act. The Shares may not be directly or indirectly offered or sold to or for the benefit of a "US Person", which shall be defined as and include (i) a "United States person" as described in section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), (ii) a "U.S. person" as such term is defined in Regulation S of the 1933 Act, as amended, (iii) a person that is "in the United States" as defined in Rule 202(a)(30)-1 under the U.S. Investment Advisers Act of 1940, as amended, or (iv) a person that is not a "Non-United States Person" as such term is defined in U.S. Commodities Futures Trading Commission Rule 4.7.

Generally: the above information is for general guidance only, and it is the responsibility of any person or persons in possession of this Prospectus and wishing to make application for shares to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for shares should inform themselves as to legal requirements also applying and any applicable exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile.

For further information, please refer to the Table of Contents on page 4 of this Prospectus. If you are in any doubt about the contents of this document you should consult your stockbroker, bank manager, accountant or other professional adviser.

Defined terms shall have the meaning ascribed to them under "DEFINITIONS" below.

In view of economic and share market risks, no assurance can be given that the Company will achieve its investment objectives and the value of the shares can rise or fall.

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, notably the right to participate in general meetings of shareholders, if the investor is registered himself and in his own name in the shareholders' register of the Company. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not be possible for

the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

Data Protection

Pursuant to the Luxembourg law of 2 August 2002 on the Protection of Persons with regard to the Processing of Personal Data (as amended from time to time) any personal data that is furnished in connection with an investment in the Company may be held on computer and processed by the Management Company, Investment Manager(s), Investment Adviser(s) (if any) and/or their delegates and affiliates, as well as the Depositary Bank, Administrative Agent (each as defined hereafter), distributors or their delegates (collectively "Woodman") as data processor or data controller, as appropriate. Personal data may be processed for the purposes of carrying out the services of the aforementioned entities and to comply with legal obligations including legal obligations under applicable company law, anti-money laundering legislation FATCA, automatic exchange of information (under the Euro-CRS Directive) or similar laws and regulations. Personal data may be used in connection with investments in other investment fund(s) managed, administered, advised or initiated by Woodman. Personal data shall be disclosed to third parties where necessary for legitimate business interests only. This may include disclosure to third parties such as auditors and the regulators or agents of the aforementioned entities who process the personal data for carrying out their services and complying with legal obligations including legal obligations as described above. Certain of the aforementioned entities and third parties may be situated in countries outside of the European Union including but not limited to Switzerland which may not have data protection requirements deemed equivalent to those prevailing in the European Union.

When subscribing shares in the Company investors consent to the aforementioned processing of their personal data and in particular the disclosure of their personal data as described in the preceding paragraph including the transfer of their personal data to parties situated in countries outside of the European Union including but not limited to Switzerland which may not have the same personal data protection laws as in Luxembourg.

Reasonable measures have been taken to ensure confidentiality of the personal data transferred abroad. However, due to the fact that the personal data is transferred electronically and made available outside of Luxembourg, the same level of confidentiality and the same level of protection in relation to data protection regulation as currently in force in Luxembourg may not be guaranteed while the personal data is kept abroad.

The Company will accept no liability with respect to any unauthorised third party receiving knowledge of and/or having access to such personal data, except in case of wilful negligence or gross misconduct of the Company.

Investors may request access to, rectification of or deletion of any personal data provided to any of the parties above or stored by any of the parties above in accordance with applicable data protection legislation. Personal data shall not be held for longer than necessary with regard to the purpose of the data processing, subject always to applicable minimum retention periods.

DEFINITIONS

Administrative Agent:	Credit Suisse Fund Services (Luxembourg) S.A., 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg
Articles:	The articles of incorporation of the Company, as amended from time to time.
Board of Directors:	The board of directors of the Company.
Business Day:	Any day on which banks in Luxembourg are open for business except for 24 December, unless defined otherwise in the Appendix for a Sub-Fund.
CHF:	The lawful currency of Switzerland.
Class of Shares or Class:	A class of shares of a Sub-Fund created by the Company having a specific distribution policy, sales and redemption mechanism, fee structure, holding requirements, currency and hedging policy or other specific characteristics.
Commitment Approach:	A method of calculation of global exposure as detailed in applicable laws and regulations including but not limited to CSSF Circular 11/512.
Company:	Woodman SICAV, a <i>société d'investissement à capital variable</i> .
CSSF:	<i>Commission de Surveillance du Secteur Financier</i> , the supervisory authority in Luxembourg.
Depository Bank:	Credit Suisse (Luxembourg) S.A., 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg
Domiciliary Agent:	MultiConcept Fund Management S.A 5, rue Jean Monnet L-2180 Luxembourg
Eligible State:	Any Member State or other State in Europe, Asia, Oceania, the Americas or Africa.
ESMA:	The European Securities and Markets Authority.
Euro or EUR:	Currency of the Member States of the European Union that use the single currency.
GBP:	The lawful currency of the United Kingdom.

Institutional Investors:	Institutional Investors as defined in Article 174 of the 2010 Law.
Investment Adviser:	The person appointed to provide investment advice, if any.
Investment Grade:	Securities with a rating of at least BBB- from Standard & Poor's or Fitch Ratings or at least Baa3 from Moody's Investor Services, or which are judged to be of equivalent quality based on similar credit criteria at the time of acquisition. In the event of a split rating, the better rating can be used.
Investment Managers:	Persons appointed to manage the assets, as determined in the Appendix for each Sub-Fund, if any.
Key Investor Information Document (KIID):	The key investor information document containing information on each Class of Shares of the Company. Information on Classes of Shares launched shall be available on the website www.woodman.ch and http://www.credit-suisse.com/multiconcept . The Company draws the attention of the investors to the fact that before any subscription of shares, investors should consult the KIIDs on Classes of Shares available on the website www.woodman.ch / http://www.credit-suisse.com/multiconcept . A paper copy of the KIIDs may also be obtained at the registered office of the Company or of the distributors, free of charge.
Management Company:	MultiConcept Fund Management S.A 5, rue Jean Monnet L-2180 Luxembourg
Member State:	as defined in the 2010 Law.
Memorial:	<i>Mémorial C, Recueil des Sociétés et Associations</i> of the Grand Duchy of Luxembourg.
Money Market Instruments:	Instruments normally dealt in on the money market which are liquid, and have a value which can be accurately determined at any time.
NAV:	Net Asset Value.

Net Asset Value:	In relation to any Class of Shares in a Sub-Fund, the value of the net assets of that Sub-Fund attributable to that Class and calculated in accordance with the provisions described in Section XIV of this Prospectus.
Other UCI:	An undertaking for collective investment as defined in the 2010 Law.
Paying Agent:	Credit Suisse (Luxembourg) S.A., 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg
Prospectus:	The present prospectus.
Reference Currency:	Currency in which a Sub-Fund or Class of Shares is denominated.
Registrar and Transfer Agent:	Credit Suisse Fund Services (Luxembourg) S.A., 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg
Regulated Market:	Regulated market as defined in Directive 2004/39/EC of 21 April 2004 on financial instruments markets (Directive 2004/39/EC), i.e. a market on the list of regulated markets prepared by each Member State, that functions regularly characterised by the fact that the regulations issued or approved by the competent authorities set out the conditions of operation and access to the market, as well as the conditions that a given financial instrument must meet in order to be traded on the market, compliance with all information and transparency obligations prescribed in Directive 2004/39/EC, as well as any other regulated, recognised market open to the public in an Eligible State that operates regularly.
SICAV:	<i>Société d'investissement à capital variable.</i>
Speculative Securities:	Securities that are below an Investment Grade or unrated.
Sub-Fund:	Refers to one of the sub-funds of the Company.
Transferable Securities:	As defined in the 2010 Law.
UCI:	Undertaking for collective investment.

UCITS:	Undertaking for collective investment in transferable securities authorised in accordance with the UCITS IV Directive.
UCITS IV Directive:	Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investments in transferable securities (UCITS), as amended by the directive 2014/91/EU on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards depositary functions, remuneration policy and sanctions.
USD:	The lawful currency of the United States of America.
Valuation Day:	As determined in the Appendix for each Sub-Fund.
2005 Law:	Law of 21 June 2005 transposing in Luxembourg law the Council Directive 2003/48/EC of 3 June 2003 on the taxation of savings income in the form of interest rate payments.
2010 Law:	Law of 17 December 2010 concerning undertakings for collective investment, as amended.

I. THE COMPANY

The Company is an open-ended investment fund with multiple compartments ("*société d'investissement à capital variable*" (SICAV) à *compartiments multiples*) governed by Luxembourg law, established in accordance with the provisions of Part I of the 2010 Law.

The Company was incorporated for an unlimited duration on the 8 January 2016 under the name of Woodman SICAV. The Articles were published in the Memorial on 28 January 2016.

The Company's registered office is at 5, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and the Company is registered with the *Registre de Commerce et des Sociétés* of Luxembourg under number B 2013 127.

The Company's capital shall at all times be equal to the value of its total net assets. The minimum capital required by law is EUR 1,250,000.

II. MANAGEMENT COMPANY

MultiConcept Fund Management S.A. was appointed by the Board of Directors as management company and domiciliary agent of the Company in accordance with the provisions of the management company agreement effective as of 8 January 2016 for an undetermined period and pursuant to which the Board of Directors delegates, under its sole control, the investment management, administration and marketing functions to the Management Company. This agreement may be terminated by each party by a three (3) months' prior notice or at any time in specific circumstances described therein.

MultiConcept Fund Management S.A. was incorporated in Luxembourg on 10 February 2004 as a *société anonyme* governed by Luxembourg law and is registered on the list of management companies authorised by the CSSF. The Management Company has its registered office at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. The Management Company is registered with the *Registre de Commerce et des Sociétés* of Luxembourg under number B 98834. Copies of the Management Company's articles of incorporation may be obtained at the *Registre de Commerce et des Sociétés*. The issued capital of the Management Company is three million three hundred thirty six thousand one hundred twenty five (3,336,125) Swiss francs.

The corporate object of the Management Company consists, inter alia, in the management (within the meaning of Article 101 of the 2010 Law) of one or several undertakings for collective investment in transferable securities authorised according to the UCITS IV Directive as well as, as the case may be, of one or more undertakings for collective investment not subject to such directive.

The Management Company has adopted various procedures and policies in accordance with Luxembourg laws and regulations (including but not limited to CSSF regulation 10-04 and CSSF circular 12/546). Shareholders may, in accordance with Luxembourg laws and regulations, obtain a summary and/or more detailed information on such procedures and policies upon request and free of charge.

As Domiciliary Agent, MultiConcept Fund Management S.A. is primarily responsible for receiving and keeping safely any and all notices, correspondence, telephonic advice or other representations and communications received for the account of the Company, as well as for providing such other facilities as may from time to time be necessary in the course of the day-to-day administration of the Company.

The Management Company has implemented the group standard remuneration policy and published a local appendix which is consistent with, and promotes, sound and effective risk management and that neither encourages risk taking which is inconsistent with the risk profiles of the Sub-Funds and the Articles nor impairs compliance with the Management Company's duty to act in the best interest of the Company and its Shareholders.

The remuneration policy of the Management Company has been adopted by its board of directors and is reviewed at least annually. The remuneration policy is based on the approach that remuneration should be in line with the business strategy, objectives, values and interests of the Management Company, the Sub-Funds it manages and their Shareholders, and includes measures to avoid conflicts of interest, such as taking into account the holding period recommended to the Shareholders when assessing the performance.

All employees of the Credit Suisse Group are subject to the Group Compensation Policy, the objectives of which include:

- (a) supporting a performance culture that is based on merit and differentiates and rewards excellent performance, both in the short and long term, and recognizes Credit Suisse's company values;
- (b) balancing the mix of fixed and variable compensation to appropriately reflect the value and responsibility of the role performed day to day, and to influence appropriate behaviours and actions; and
- (c) consistency with, and promotion of, effective risk management practices and Credit Suisse's compliance and control culture.

Details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and

benefits, including a description of the global Credit Suisse Group compensation committee are available on <https://multiconcept.credit-suisse.com/RemunerationPolicy.pdf> and will be made available to investors free of charge upon request.

III. INVESTMENT MANAGERS

The Management Company has entrusted the daily management of the assets of the Sub-Funds to Investment Managers as described in the Appendix for each Sub-Fund.

The Investment Managers may enter with broker-dealers that are entities and not individuals into soft commission arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the relevant Sub-Fund, and where the Investment Managers are satisfied that the transactions generating the soft commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interest of the relevant Sub-Fund. Any such arrangement must be made by the Investment Managers on terms commensurate with best market practice. The use of soft commissions shall be disclosed in the periodic reports.

IV. DEPOSITARY BANK AND PAYING AGENT

Pursuant to a depositary and paying agent services agreement (the "Depositary Agreement"), Credit Suisse (Luxembourg) S.A. has been appointed as depositary of the Company (the "Depositary"). The Depositary will also provide paying agent services to the Company.

Credit Suisse (Luxembourg) S.A. is a public limited company (*société anonyme*) under the laws of Luxembourg incorporated for an unlimited duration. Its registered and administrative offices are at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. It is licensed to engage in all banking operations under Luxembourg law.

The Depositary has been appointed for the safe-keeping of the assets of the Company in the form of custody of financial instruments, the record keeping and verification of ownership of other assets of the Company as well as for the effective and proper monitoring of the Company's cash flows in accordance with the provisions of the 2010 Law and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with Luxembourg law and the Articles; (ii) the value of the Shares is calculated in accordance with Luxembourg law and the Articles; (iii) the instructions of the Management Company or the Company are carried out, unless they conflict with

applicable Luxembourg law and/or the Articles; (iv) in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and (v) the Company's incomes are applied in accordance with Luxembourg law and the Articles.

In compliance with the provisions of the Depositary Agreement and the 2010 Law, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody and that are duly entrusted to the Depositary for custody purposes to one or more sub-custodian(s), and/or in relation to other assets of the Company all or part of its duties regarding the record keeping and verification of ownership to other delegates, as they are appointed by the Depositary from time to time. The Depositary shall exercise all due skill, care and diligence as required by the 2010 Law in the selection and the appointment of any sub-custodian and/or other delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-custodian and/or other delegate to which it has delegated parts of its tasks as well as of the arrangements of the sub-custodian and/or other delegate in respect of the matters delegated to it. In particular, any delegation of custody tasks may only occur when the sub-custodian, at all times during the performance of the tasks delegated to it, segregates the assets of the Company from the Depositary's own assets and from assets belonging to the sub-custodian in accordance with the 2010 Law.

As a matter of principle the Depositary does not allow its sub-custodians to make use of delegates for the custody of financial instruments unless further delegation by the sub-custodian has been agreed by the Depositary. To the extent, sub-custodians are accordingly entitled to use further delegates for the purpose of holding financial instruments of the Company that can be held in custody, the Depositary will require the sub-custodians to comply for the purpose of such sub-delegation with the requirements set forth by applicable laws and regulations, e.g. namely in respect of asset segregation.

Prior to the appointment and/or the use of any sub-custodian for the purposes of holding financial instruments of the Company or Sub-Funds, the Depositary analyses - based on applicable laws and regulations as well as its conflict of interests policy - potential conflicts of interests that may arise from such delegation of safekeeping functions. As part of the due diligence process applied prior to the appointment of a sub-custodian, this analysis includes the identification of corporate links between the Depositary, the sub-custodian, the Management Company and/or the Investment Manager. If a conflict of interest was identified between the sub-custodians and any of the parties mentioned before, the Depositary would – depending on the potential risk resulting on such conflict of interest – either decide not to appoint or not to use such sub-custodian for the purpose of holding financial instruments of the Company or require changes which mitigated potential risks in an appropriate manner and

disclose the managed conflict of interest to the Company's investors. Such analysis is subsequently performed on all relevant sub-custodians on a regular basis as part of its ongoing due diligence procedure. Furthermore, the Depositary reviews, via a specific committee, each new business case for which potential conflicts of interest may arise between the Depositary, the Company, the Management Company and the Investment Manager(s) from the delegation of the safekeeping functions.

As of the date of this Prospectus the Depositary has not identified any potential conflict of interest that could arise from the exercise of its duties and from the delegation of its safe keeping functions to sub-custodians.

As per the date of this Prospectus, the Depositary does not use any sub-custodian which is part of the Credit Suisse Group and thereby avoids conflicts of interests which might potentially result thereof.

An up-to-date list of these sub-custodians along with their delegate(s) for the purpose of holding in custody financial instruments of the Company or Sub-Funds can be found on the webpage <https://www.credit-suisse.com/media/pb/docs/lu/privatebanking/services/list-of-credit-suisse-lux-sub-custodians.pdf> and will be made available to shareholders and investors upon request.

The Depositary's liability shall not be affected by any such delegation to a sub-custodian unless otherwise stipulated in the 2010 Law and/or the Depositary Agreement.

The Depositary is liable to the Company or its Shareholders for the loss of a financial instrument held in custody by the Depositary and/or a sub-custodian. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Company without undue delay. In accordance with the provisions of the 2010 Law, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Company and to the Shareholders for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its duties in accordance with applicable law, in particular the 2010 Law and/or the Depositary Agreement.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Company, the Depositary must be replaced, at the latest within two (2) months after the expiry of the aforementioned termination period by a successor depositary to whom the Company's assets are to be delivered

and who will take over the functions and responsibilities of the Depositary. If the Company does not name such successor depositary in time the Depositary may notify the CSSF of the situation. The Company will take the necessary steps, if any, to initiate the liquidation of the Company, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days

V. ADMINISTRATIVE AGENT AND REGISTER AND TRANSFER AGENT

The Board and the Management Company have appointed Credit Suisse Fund Services (Luxembourg) S.A. as administrative agent and as registrar and transfer agent of the Company under the terms of a central administration agreement which may be terminated by either party, subject to a three (3) months' prior notification or at any time in specific circumstances described therein.

As Registrar and Transfer Agent, Credit Suisse Fund Services (Luxembourg) S.A. is primarily responsible for ensuring the issue, conversion and redemption of shares and maintaining the register of shareholders of the Fund.

As Administrative Agent, Credit Suisse Fund Services (Luxembourg) S.A. is responsible for calculating and publishing the Net Asset Value of the shares of each Sub-Fund pursuant to the 2010 Law and the Articles and for performing administrative and accounting services for the Fund as necessary.

VI. INVESTMENT OBJECTIVES, POLICIES AND RESTRICTIONS

1. Investment objectives

The objective of the Company is to maximise the value of its assets by means of professional management within the framework of an optimal risk-return profile for the benefit of its shareholders.

2. Investment Policies of the Sub-Funds

The investment policy of each Sub-Fund is set forth in the Appendix.

3. Investment restrictions

The Board of Directors has decided that the following investment restrictions shall apply to the Company and, if appropriate, to the Sub-Funds unless provided otherwise for a particular Sub-Fund in the Appendix.

3.1. The Company's investments may include:

(a) Transferable Securities and Money Market Instruments admitted to or dealt in on

- a Regulated Market;
- (b) Recently issued Transferable Securities and Money Market Instruments, provided that:
- The terms of issue include an undertaking that application will be made for admission to official listing on a Regulated Market,
 - The admission is secured within one year of issue.
- (c) Shares/units of UCITS and/or Other UCIs, whether or not established in a Member State provided that:
- Such Other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in Community law, and that cooperation between the authorities is sufficiently ensured;
 - The level of protection for shareholders/unitholders in such Other UCIs is equivalent to that provided for shareholders/unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of the UCITS IV Directive;
 - The business of such Other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period;
 - No more than 10% of the assets of the UCITS or Other UCIs, whose acquisition is contemplated, can, according to their constitutive documents, be invested in aggregate in shares/units of UCITS or Other UCIs.
- (d) Deposits with a credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the credit institution has its registered office in a non-Member State, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in Community law.
- (e) Financial derivative instruments, including equivalent cash-settled instruments, dealt in on a Regulated Market and/or financial derivative instruments dealt in over-the-counter, provided that:
- The underlying consists of instruments falling within this section 3.1, financial indices, interest rates, foreign exchange rates or currencies, in which the

Company may invest in accordance with its investment objectives;

- Counterparties to over-the-counter derivative transactions are institutions subject to prudential supervision and belonging to the categories approved by the CSSF; and
 - The over-the-counter derivatives are subject to reliable and verifiable valuation on a daily basis and can, at the Company's discretion, be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative.
- (f) Money Market Instruments other than those dealt in on a Regulated Market, if the issue or the issuer of such instruments is itself subject to regulations for the purpose of protecting savings and investors, and provided that these instruments are:
- Issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, a non-Member State or, in the case of a Federal State, by one of the members of the federation or by a public international body of which one or more Member States belong, or
 - Issued by an undertaking any securities of which are dealt in on a Regulated Market, or
 - Issued or guaranteed by an establishment that is subject to prudential supervision according to criteria defined by Community law or by an establishment which is subject to, and in compliance with, prudential rules considered by the CSSF as being at least as stringent as those laid down by Community law, or
 - Issued by other bodies belonging to categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, second or third indents above, and provided that the issuer is a company whose share capital and reserves amount to at least ten million Euros (€10,000,000) and which presents and publishes its annual accounts in accordance with the Fourth Directive 78/660/EEC, is an entity which, within a group of companies which includes one or more listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

3.2. The Company may also, within each Sub-Fund, make the following investments:

- (a) The Company may invest up to a maximum of 10% of the net assets of each Sub-Fund in Transferable Securities and Money Market Instruments other than those referred to above in 3.1.
- (b) The Company may hold ancillary liquid assets.
- (c) The Company may borrow:
 - (i) up to 10% of the net assets of each Sub-Fund provided such borrowings are temporary. The Company may however purchase foreign currency by means of back-to-back loans.
 - (ii) up to 10% of its net assets to enable the acquisition of immovable property essential for the direct pursuit of its business.

The aggregate amount of borrowing pursuant to (c) (i) and (ii) above may however not exceed 15% of the Company's net assets.

- (d) The Company may acquire shares/units of UCITS or Other UCIs subject to the following limits:
 - (i) The Company may acquire shares/units of UCITS and/or Other UCIs referred to in 3.1(c), provided that no more than 10% of its assets are invested in the shares/units of UCITS or Other UCI, unless otherwise provided for a Sub-Fund.

In case a Sub-Fund may invest more than 10% of its net assets in UCITS or Other UCIs, such Sub-Fund may not invest more than 20% of its net assets in a single UCITS or Other UCI.

Investments made in Other UCIs may not, in aggregate, exceed 30% of such Sub-Fund. The underlying investments held by UCITS or Other UCIs in which the Company invests in do not need to be taken into account for the purpose of the restrictions set forth under 3.3.

For the purposes of the application of this limit, each compartment of a UCITS or Other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of the segregation of obligations of different compartments in relation to third parties is assured.

- (ii) Where the Company invests in shares/units of UCITS and/or Other UCIs that are managed, directly or by delegation, by the same management company or by any other company with which the management

company is linked by common management or control, or by a substantial direct or indirect holding of more than 10% of the capital or votes, the management company or other company may not charge subscription or redemption fees to the Company on account of the Company's investments in shares/units of such UCITS and/or Other UCIs. The Company may invest in such UCITS or Other UCIs provided the management fees (excluding performance fee, if any) of such UCITS or Other UCIs may not exceed 4%. The Company will indicate in its annual report the total management fees charged to the Company and to such UCITS and Other UCIs.

- (iii) A Sub-Fund may not purchase more than 25% of the shares/units of the same UCITS and/or Other UCI. In case the UCITS or Other UCI is an umbrella fund with multiple sub-funds, this limit applies to the UCITS or Other UCI as a whole.

3.3. Also the Company shall, for each Sub-Fund, comply with the following investment restrictions:

- (a) The Company may not invest in assets issued by the same body in excess of the limits set forth below:

The Company may not invest more than 10% of the net assets of a Sub-Fund in Transferable Securities or Money Market Instruments issued by the same issuing body.

- (i) The Company may not invest more than 20% of the net assets of a Sub-Fund in deposits made with the same body.

The risk exposure to a counterparty of each Sub-Fund in an over-the-counter derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in section 3.1 (d), or 5% of its net assets in other cases.

- (ii) The total value of the Transferable Securities and Money Market Instruments held by a Sub-Fund of issuing bodies in which it individually invests more than 5% of its net assets, the total of all such investment shall not exceed 40% of the value of such Sub-Fund's net assets.

This limit does not apply to deposits and over-the-counter derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits set under 3.3 (a) (i), the Company may not combine for each Sub-Fund:

- Investments in Transferable Securities or Money Market Instruments issued by a single body;
- Deposits made with the same body; and/or
- Exposure arising from over-the-counter derivative transactions undertaken with the same body

in excess of 20% of its net assets;

- (iii) The 10% limit referred to in 3.3 (a) (i) above may be increased to a maximum of 35% if the Transferable Securities or the Money Market Instruments are issued or guaranteed by a Member State, its public local authorities or by another Eligible State or by public international bodies of which one or more Member States are members;
- (iv) The limit referred to in 3.3 (a) (i) above is increased to 25% for certain bonds issued by a credit institution whose registered office is in a Member State and which is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must, in accordance with the law, be invested in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.

If the Company invests more than 5% of the net assets of a given Sub-Fund in such bonds, issued by a single issuer, the total value of such investments may not exceed 80% of the value of the net assets of such Sub-Fund;

- (v) The 10% limit of 3.3 (a) (i) is raised to a maximum of 20% for investments in shares and/or debt securities issued by the same issuing body for a Sub-Fund whose investment policy aims to replicate the composition of a certain stock or debt securities index recognised by the CSSF on the following basis: (i) the composition of the index is sufficiently diversified, (ii) the index represents an adequate benchmark for the market to which it refers and (iii) it is published in an appropriate manner. This 20% limit may be increased to 35% where justified by exceptional market conditions, but only for a single issuer.

The Transferable Securities and Money Market Instruments referred to in 3.3 (a) (iii) and (iv) shall not be taken into account for the purpose of applying the 40% limit fixed in 3.3 (a) (ii).

The limits set forth in 3.3. (a) (i), (ii), (iii) and (iv) shall not be combined and,

consequently, investments in Transferable Securities and in Money Market Instruments issued by the same body or in deposits or in financial derivative instruments made with this body in accordance with 3.3. (a) (i), (ii), (iii) and (iv) may not, in any event, exceed in total 35% of the net assets of a Sub-Fund.

Companies, which are included in the same group for the purposes of consolidation of accounts within the meaning of Directive 83/349/EEC or in accordance with recognised international accounting rules, shall be treated as a single body for the purposes of calculating the limits in this paragraph.

The Company may cumulatively invest up to 20% of its assets in Transferable Securities and Money Market Instruments within the same group.

By way of derogation from the limits set forth in 3.3 (a) (i), (ii) and (iii), the Company, in accordance with risk diversification principles, is authorised to invest up to 100% of the net assets of each Sub-Fund in different Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, one or more of its local public authorities, a OECD member state, Singapore, Russia, Indonesia, South Africa, China or Brazil or a public international bodies to which one or more Member States belong, provided that such securities held are from at least six different issues and securities from any single issue shall not account for more than 30% of the total amount of the net assets of each Sub-Fund.

- (b) The Company may not purchase shares carrying voting rights which would enable the Company to exercise significant influence over the management of an issuing body.

The Company may not purchase more than:

- (c) 10% of non-voting shares of the same issuer.
- (d) 10% of debt instruments of the same issuer.
- (e) 10% of Money Market Instruments of any single issuer.

The limits set forth in (d) and (e) above and 3.2. (d) (iii) do not have to be complied with at the time of the acquisition if, at such time, the gross amount of debt or Money Market Instruments or the net amount of the instruments in issue cannot be calculated.

The limits set forth in (b) to (e) above and 3.2 (d) (iii) do not apply in relation to:

- Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or by local authorities or by any other Eligible State or;

- Shares held in a company incorporated in a non-Member State investing its assets essentially in securities of issuing bodies having their registered office in that State where, pursuant to the legislation of that State, such a shareholding is the only way in which it is possible to invest in securities of issuing bodies of that State. This derogation, however, shall apply only if the investment policy of the company from the non-Member State complies with the limits set forth in 3.2.(d) (i), 3.3.(a) (i) (ii) (iii) (iv) and 3.3. (b) to (e). If the limits set forth in 3.2 (d) (i) and 3.3 (a) (i) (ii) (iii) (iv) are exceeded, paragraph 3.4 below shall apply *mutatis mutandis*.
- Shares held by the Company in the share capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is established in relation to the purchase of units or shares at the request of unitholders/shareholders exclusively on their behalf.
- (f) The Company may not purchase or invest directly in commodities, including precious metals, or in certificates that represent commodities.
- (g) The Company may not make investments in which the liability of the investor is unlimited.
- (h) The Company may not short-sell Transferable Securities, Money Market Instruments, undertakings for collective investment or any of the other financial instruments referred to in 3.1 (c), (e) and (f).
- (i) The Company may not purchase immovable property unless such a purchase is essential for the direct pursuit of its business.
- (j) The Company may not grant loans or act as guarantor for third parties.

The limits set forth in 3.2 and 3.3 above do not have to be complied with by the Company when it is exercising subscription rights attached to Transferable Securities or to Money Market Instruments forming part of its assets.

3.4 Cross sub-fund investments

A Sub-Fund (the "Investing Sub-Fund") may subscribe, acquire and/or hold securities to be issued or issued by one or more Sub-Funds (each, a "Target Sub-Fund") without the Company being subject to the requirements of the Law of 10 August 1915 on commercial companies, as amended, with respect to the subscription, acquisition and/or the holding by a company of its own shares, under the condition however that:

- the Target Sub-Fund does not, in turn, invest in the Investing Sub-Fund

invested in this Target Sub-Fund(s); and

- no more than 10% of the assets that the Target Sub-Fund whose acquisition is contemplated, may, according to its investment policy, be invested in units/shares of UCITS or Other UCIs; and
- the Investing Sub-Fund may not invest more than 20% of its net assets in shares/units of a single Target Sub-Fund; and
- in any event, for as long as these securities are held by the Investing Sub-Fund, their value will not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the 2010 Law.

3.5 Master-feeder structures

Under the conditions and within the limits laid down by the 2010 Law, the Company may, to the widest extent permitted by the Luxembourg laws and regulations (i) create any Sub-Fund qualifying either as a feeder UCITS (a "Feeder UCITS") or as a master UCITS (a "Master UCITS"), (ii) convert any existing Sub-Fund into a Feeder UCITS, or (iii) change the Master UCITS of any of its Feeder UCITS.

- (a) A Feeder UCITS shall invest at least 85% of its assets in the units/shares of another Master UCITS.
- (b) A Feeder UCITS may hold up to 15% of its assets in one or more of the following:
 - ancillary liquid assets in accordance with 3.3 (f);
 - financial derivative instruments, which may be used only for hedging purposes.
- (c) For the purposes of compliance with Article 42 (3) of the 2010 Law, the Feeder UCITS shall calculate its global exposure related to financial derivative instruments by combining its own direct exposure under the second indent under (b) with either:
 - the Master UCITS actual exposure to financial derivative instruments in proportion to the Feeder UCITS investment into the Master UCITS; or
 - the Master UCITS potential maximum global exposure to financial derivative instruments provided for in the Master UCITS management regulations or instruments of incorporation in proportion to the Feeder UCITS investment into the Master UCITS.

(d) A Master UCITS may not invest in a Feeder UCITS.

3.6 Newly authorised Sub-Fund

Similarly, if a new Sub-Fund is created, while ensuring observance of the principle of risk-spreading, the limits set forth in points 3.3 a) above do not have to be complied with by the newly created Sub-Fund for a period of six months after the date of its launch in accordance with article 49(1) of the 2010 Law.

3.7. Additional investment restrictions

Unless provided for in the Appendix in relation to a Sub-Fund, the Company will not invest more than:

- 20% of a Sub-Fund's net assets in
 - ABS/MBS
 - contingent convertible fixed income instruments
- 10% directly in China A Shares

The maximum amounts a Sub-Fund can invest in the foregoing instruments is disclosed in the relevant appendix.

3.8. General

If these limits are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account the interests of its shareholders.

The Company reserves the right to introduce other investment restrictions at any time, provided that they are compatible with Part I of the 2010 Law and essential to compliance with laws and regulations in force in certain non-Member States where the shares of the Company may be offered or sold.

4. Financial Derivative Instruments

Each Sub-Fund is authorised, in accordance with the investment restrictions and their relevant investment policy, as set out in the Appendix, to use financial derivative instruments for investment purposes as well as efficient portfolio management purposes. In addition, each Sub-Fund is entitled to use financial derivative instruments for currency, interest rate or other hedging purposes.

Under no circumstances may the use of financial derivative instruments result in an investment policy diverging from that set out for each Sub-Fund in this Prospectus.

The global exposure of each Sub-Fund relating to financial derivative instruments shall not exceed the net assets of the Sub-Fund. Exposure is calculated taking into account the current value of underlying assets, counterparty risk, foreseeable market movements and the time available to liquidate positions. This also applies to the following paragraphs.

As indicated above, Sub-Funds may, within the framework of their investment policies and within the limits laid down in section 3.1. (g) above, invest in financial derivative instruments provided that the overall risks to which the underlying assets are exposed do not exceed the investment limits set out in section 3.3. (a) above. When the Company invests in index-based financial derivative instruments, these investments do not necessarily have to be combined for the purpose of the limits set out above in section 3.3 (a).

When a financial derivative instrument is embedded in a transferable security or money market instrument, this must be taken into account for the purposes of complying with the provisions of this section.

The risk of counterparty default and the effect on investors returns are described under paragraph "c) Swaps" of section "VII Risk Factors".

4.1. Management of Collateral and Collateral Policy

General

In the context of OTC financial derivative transactions and efficient portfolio management techniques, the Company may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Company in such case. All assets received by the Company in the context of efficient portfolio management techniques shall be considered as collateral for the purpose of this section.

Eligible Collateral

Collateral received by the Company may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and CSSF-Circulars issued from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- (i) Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
- (ii) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably

- conservative haircuts are in place;
- (iii) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
 - (iv) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the respective Sub-Fund's net asset value to any single issuer on an aggregate basis, taking into account all collateral received; deviating from the aforementioned diversification requirement, a Sub-Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by an issuer as described under point vi. Investment Objectives, policies and restriction, 3.3 a), last paragraph. Such Sub-Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Sub-Fund's Net Asset Value. A Sub-Fund may accept as collateral for more than 20% of its Net Asset Value securities which are issued or guaranteed by an issuer as aforementioned.
 - (v) Risks linked to the management of collateral, such as operational and legal risks, should be identified, managed and mitigated by the risk management process;
 - (vi) Where there is a title transfer, the collateral received should be held by the Depositary Bank. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral;
 - (vii) It should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Reinvestment of Collateral

Non-cash collateral received by the Company may not be sold, re-invested or pledged.

Cash collateral received by the Company can only be:

- (i) placed on deposit with credit institutions which have their registered office in Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the CSSF as equivalent to those laid down in Community law;
- (ii) invested in high-quality government bonds;
- (iii) used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on accrued basis; and/or

- (iv) invested in short-term money market funds as defined in the ESMA-Guidelines 2010/049 on a Common Definition of European Money Market Funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral as set out above.

The Sub-Fund concerned may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the Company on behalf of such Sub-Fund to the counterparty at the conclusion of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

Subject to the abovementioned conditions, collateral received by the Company may consist of:

- (i) Cash and cash equivalents, including short-term bank certificates and money market instruments;
- (ii) Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope;
- (iii) Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent;
- (iv) Shares or units issued by UCITS investing mainly in bonds/shares mentioned in lit. (e) and (f) of section 1 of Chapter 5, "Investment Restrictions", below;
- (v) Bonds issued or guaranteed by first class issuers offering adequate liquidity
- (vi) Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD, on the condition that these shares are included in a main index.

Level of Collateral

The Management Company will determine the required level of collateral for OTC financial derivatives transactions and efficient portfolio management techniques by reference to the applicable counterparty risk limits set out in this Prospectus and taking into account the nature and characteristics of transactions, the creditworthiness and identity of counterparties and prevailing market conditions. At least the following level of collateral will be required by the Management Company for the different types of transactions:

Type of Transaction	Level of collateral (in relation to volume of transaction concerned)
OTC financial derivative transactions	100%
Securities lending transactions	100%
Repurchase transactions	100%
Reverse repurchase transactions	100%

Haircut Policy

Collateral will be valued, on a daily basis, using available market prices and taking into account appropriate discounts which will be determined by the Management Company for each asset class based on its haircut policy. The policy takes into account a variety of factors, depending on the nature of the collateral received, such as the issuer's credit standing, the maturity, currency, price volatility of the assets and, where applicable, the outcome of liquidity stress tests carried out by the Management Company under normal and exceptional liquidity conditions.

According to the Management Company's haircut policy currently the following discounts will be made:

Type of Collateral	Discount
Cash and cash equivalents (only in currencies of G10 member states), including short-term bank certificates and money market instruments; a discount will only be made with regard to collateral not denominated in the reference currency of the relevant Sub-Fund	0,5% - 1%
Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope	0,5% - 5%
Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent	0,5% - 1%
Shares or units issued by UCITS investing mainly in bonds/shares	15%
Bonds issued or guaranteed by first class issuers offering adequate liquidity	1% - 8%
Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD, on the condition that these shares are included in a main index	15%

The Management Company reserves the right, at its sole discretion to amend the discounts applied. The actual discounts applies may be obtained free of charge from the Management Company.

5. Techniques and Instruments

The Company may, on behalf of each Sub-Fund and subject to the conditions and within the limits laid down in the 2010 Law as well as any present or future related Luxembourg laws or implementing regulations, circulars and CSSF's positions, employ techniques and instruments relating to transferable securities and money market instruments provided that such techniques and instruments are used for efficient portfolio management purposes, investment purposes or to provide protection against risk. Such techniques and instruments may include, but are not limited to, engaging in transactions in financial derivative instruments such as futures, forwards, options, swaps and swaptions. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques and instruments in accordance with the applicable laws and regulations.

To the extent permitted by, and within the limits of, the 2010 Law and any related Luxembourg law or any other regulation in force, circulars and positions of the CSSF and, in particular, the provisions of (i) Article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the amended Law of 20 December 2002 relating to undertakings for collective investment and (ii) CSSF circular 08/356 relating to rules applicable to undertakings for collective investment when they employ certain techniques and instruments relating to transferable securities and money market instruments and (iii) CSSF circular 14/592 relating to ESMA guidelines on ETFs and other UCITS issues (as amended or replaced from time to time), each Sub-Fund can, in order to generate capital or additional income or to reduce costs or risk (A) enter into repurchase transactions, either as a buyer or a seller, and (B) engage in securities lending transactions.

Where applicable, cash received as guarantee by each Sub-Fund in relation to one of these operations can be reinvested in a manner compatible with the investment objectives of the Sub-Fund in (a) shares or units issued by money market undertakings for collective investment calculating a daily net asset value and with a rating of AAA or equivalent, (b) short-term bank certificates, (c) money market instruments as defined within the Grand Ducal regulation mentioned above, (d) short-term bonds issued or guaranteed by a Member State, Switzerland, Canada, Japan or the United States or their local public authorities or supranational institutions and EU, regional or worldwide undertakings, (e) bonds issued or guaranteed by issuers of the first order offering adequate liquidity, and (f) reverse repurchase agreement transactions in accordance with the provisions described in section I.C. a) of the CSSF circular mentioned above. This reinvestment will be taken into account when calculating the overall risk of each Sub-Fund concerned, in particular if it creates leverage.

Generally, no more than 20% of the gross revenue arising from securities lending transactions and efficient portfolio management transactions may be deducted from revenue delivered to the Company as direct and indirect operational expenses. Details of such amounts and the security clearing body or financial institution arranging the securities lending transaction will be disclosed in the financial report of the Fund.

Unless otherwise stipulated in the investment policy of a Sub-Fund, collateral received will not be reinvested.

6. Pooling

For the purpose of effective management, and subject to the provisions of the Articles and to applicable laws and regulations, the Board of Directors may invest and manage all or any part of the portfolio of assets established for two or more Sub-Funds (for the purposes hereof "Participating Funds") on a pooled basis. Any such asset pool shall be formed by transferring to it cash or other assets (subject to such assets being appropriate with respect to the investment policy of the pool concerned) from each of the Participating Funds. Thereafter, the Board of Directors may from time to time make further transfers to each asset pool. Assets may also be transferred back to a Participating Fund up to the amount of the participation of the share Class concerned. The share of a Participating Fund in an asset pool shall be measured by reference to notional units of equal value in the asset pool. On formation of an asset pool, the Board of Directors shall, in its discretion, determine the initial value of notional units (which shall be expressed in such currency as the Board of Directors consider appropriate) and shall allocate to each Participating Fund units having an aggregate value equal to the amount of cash (or to the value of other assets) contributed. Thereafter, the value of the notional unit shall be determined by dividing the net asset value of the asset pool by the number of notional units subsisting.

When additional cash or assets are contributed to or withdrawn from an asset pool, the allocation of units of the Participating Fund concerned will be increased or reduced, as the case may be, by a number of units determined by dividing the amount of cash or the value of assets contributed or withdrawn by the current value of a unit. Where a contribution is made in cash, it will be treated for the purpose of this calculation as reduced by an amount which the Board of Directors considers appropriate to reflect fiscal charges and dealing and purchase costs which may be incurred in investing the cash concerned; in the case of cash withdrawal, a corresponding addition will be made to reflect costs which may be incurred in realising securities or other assets of the asset pool.

Dividends, interest and other distributions of an income nature received in respect of the assets in an asset pool will be immediately credited to the Participating Funds in

proportion to their respective participation in the asset pool at the time of receipt. Upon the dissolution of the Company, the assets in an asset pool will be allocated to the Participating Funds in proportion to their respective participation in the asset pool.

7. Co-Management

In order to reduce operational and administrative charges while allowing a wider diversification of the investments, the Company may decide that part or all of the assets of one or more Sub-Funds will be co-managed with assets belonging to other Luxembourg collective investment schemes always subject to and in accordance with applicable rules and regulations. In the following paragraphs, the words "co-managed entities" shall refer globally to such Sub-Funds and all entities with and between which there would exist any given co-management arrangement and the words "co-managed Assets" shall refer to the entire assets of these co-managed entities and co-managed pursuant to the same co-management arrangement.

Under the co-management arrangement, the Investment Manager, if appointed and granted the day-to-day management will be entitled to take, on a consolidated basis for the relevant co-managed entities, investment, disinvestment and portfolio readjustment decisions which will influence the composition of the relevant Sub-Fund's portfolio. Each co-managed entity shall hold a portion of the co-managed Assets corresponding to the proportion of its net assets to the total value of the co-managed Assets. This proportional holding shall be applicable to each and every line of investment held or acquired under co-management. In case of investment and/or disinvestment decisions these proportions shall not be affected and additional investments shall be allotted to the co-managed entities pursuant to the same proportion and assets sold shall be levied proportionately on the co-managed Assets held by each co-managed entity.

In case of new subscriptions in one of the co-managed entities, the subscription proceeds shall be allotted to the co-managed entities pursuant to the modified proportions resulting from the net asset increase of the co-managed entity which has benefited from the subscriptions and all lines of investment shall be modified by a transfer of assets from one co-managed entity to the other in order to be adjusted to the modified proportions. In a similar manner, in case of redemptions in one of the co-managed entities, the cash required may be levied on the cash held by the co-managed entities pursuant to the modified proportions resulting from the net asset reduction of the co-managed entity which has suffered from the redemptions and, in such case, all lines of investment shall be adjusted to the modified proportions. Shareholders should be aware that, in the absence of any specific action by the Company or any of the Management Company's appointed agents, the co-management arrangement may cause the composition of assets of the relevant Sub-Fund to be influenced by events attributable to other co-managed entities such as subscriptions and redemptions. Thus, all other things being equal, subscriptions

received in one entity with which the Sub-Fund is co-managed will lead to an increase of the Sub-Fund's reserve of cash.

Conversely, redemptions made in one entity with which any Sub-Fund is co-managed will lead to a reduction of the Sub-Fund's reserve of cash. Subscriptions and redemptions may however be kept in the specific account opened for each co-managed entity outside the co-management arrangement and through which subscriptions and redemptions must pass. The possibility to allocate substantial subscriptions and redemptions to these specific accounts together with the possibility for the Company or any of the Management Company's appointed agents to decide at any time to terminate its participation in the co-management arrangement permit the relevant Sub-Fund to avoid the readjustments of its portfolio if these readjustments are likely to affect the interest of its shareholders.

If a modification of the composition of the relevant Sub-Fund's portfolio resulting from redemptions or payments of charges and expenses peculiar to another co-managed entity (i.e. not attributable to the Sub-Fund) is likely to result in a breach of the investment restrictions applicable to the relevant Sub-Fund, the relevant assets shall be excluded from the co-management arrangement before the implementation of the modification in order for it not to be affected by the ensuing adjustments.

Co-managed Assets of the Sub-Funds shall, as the case may be, only be co-managed with assets intended to be invested pursuant to investment objectives identical to those applicable to the co-managed Assets in order to assure that investment decisions are fully compatible with the investment policy of the relevant Sub-Fund. Co-managed Assets shall only be co-managed with assets for which the Depositary Bank is fully able to carry out its functions and responsibilities, with respect to the Company and its Sub-Funds, to fully carry out its functions and responsibilities pursuant to the 2010 Law. The Depositary Bank shall at all times keep the Company's assets, which are held in custody, segregated from the assets of other co-managed entities, and shall therefore be able at all time to identify the assets of the Company and of each Sub-Fund.

8. Risk Management Process

The Management Company, on behalf of the Company, will employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Sub-Fund, in accordance with CSSF circular 11/512 or any other applicable circular of the Luxembourg supervisory authority. The Management Company, on behalf of the Company will employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instruments.

9. Exposure to total return swaps, securities lending transactions, repurchase agreements and reverse repurchase agreements ("SFT Transactions")

Unless prohibited for a Sub-Fund or unless other limits are disclosed in the relevant Appendix, the following provisions apply to SFT Transactions.

General

No more than 10% of the net assets of a Sub-Fund will be subject to total return swaps.

No Sub-Fund will enter into securities lending transactions.

No Sub-Fund will enter into repurchase and/or reverse repurchase agreements.

No Sub-Fund will enter into buy-sell back or sell-buy back transactions.

No Sub-Fund will enter into margin lending transactions.

All revenues generated by total return swaps are returned to the relevant Sub-Fund. Any operational costs generated by the total return swap transactions as well as the entity to which such costs are assigned shall be disclosed in the audited annual report of the Company.

The selection of counterparties to such transactions will generally be financial institutions based in an OECD member state of any legal form and have an investment grade credit rating. Details of the selection criteria and a list of approved counterparties are available from the registered office of the Management Company.

Total return swaps

Sub-Funds may use total return swap instruments in order to generate capital or additional income or to reduce costs or risks. In such cases, the counterparty to the transaction will be a counterparty approved and monitored by the Management Company or the Investment Manager. At no time will a counterparty in a transaction have discretion over the composition or the management of the Sub-Fund's investment portfolio or over the underlying of the total return swap.

The following types of assets can be subject to total return swaps: equity and equity-related instruments, forwards and options, OTC derivatives, fixed income instruments, units of UCIs.

The risk of counterparty default and the effect on investors returns are described under section "VII. Risk Factors".

Securities lending transaction

The Company may enter into securities lending transactions in order to generate capital or additional income or to reduce costs or risks and provided that the following rules are complied with in addition to the above mentioned conditions:

- (i) The borrower in a securities lending transaction must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
- (ii) The Company may only lend securities to a borrower either directly or through a standardised system organised by a recognised clearing institution or through a lending system organised by a financial institution subject to prudential supervision rules considered by the CSSF as equivalent to those provided by EU law and specialised in this type of transaction;
- (iii) The Company may only enter into securities lending transactions provided that it is entitled at any time under the terms of the agreement to request the return of the securities lent or to terminate the agreement;

The following types of assets can be subject to securities lending transactions: equities and equity-related instruments, fixed income instruments and (if possible) shares/units of UCIs.

The risks related to the use of securities lending transactions and the effect on investors returns are described under section "VII. Risk Factors".

Repurchase and reverse repurchase transactions

The Company may enter into repurchase and reverse repurchase agreements in order to generate capital or additional income or to reduce costs or risks. Repurchase agreements consist of forward transactions at the maturity of which the Company (seller) has the obligation to repurchase the assets sold and the counterparty (buyer) the obligation to return the assets purchased under the transactions. The Company may further enter into reverse repurchase agreements that consist of forward transactions at the maturity of which the counterparty (seller) has the obligation to repurchase the asset sold and the Company (buyer) the obligation to return the assets purchased under the transactions. The Company may also enter into transactions that consist in the purchase/sale of securities with a clause reserving for the counterparty/Company the right to repurchase the securities from the Company/counterparty at a price and term specified by the parties in their contractual arrangements.

The Company's involvement in such transactions is, however, subject to the additional following rules:

(i) The counterparty to these transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;

(ii) The Company may only enter into reverse repurchase agreement and/or repurchase agreement transactions provided that it is able at any time (a) to recall the full amount of cash in a reverse repurchase agreement or any securities subject to a repurchase agreement or (b) to terminate the agreement in accordance with applicable regulations. However, fixed-term transactions that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

The following types of assets can be subject to repurchase and reverse repurchase transactions: equities and equity-related instruments, fixed income instruments and (if possible) shares/units of UCIs.

The risks related to the use of repurchase and reverse repurchase transactions and the effect on investors returns are described under section "VII. Risk Factors".

Notwithstanding anything to the contrary above, and unless provided otherwise for a Sub-Fund, the Company will not enter into any SFT Transactions as defined in Regulation (EU) 2015/2365 on transparency of securities financing transaction and of reuse (the "SFT Regulation").

If a Sub-Fund were to use repurchase or reverse repurchase transactions, securities lending transactions or any other transaction falling within the scope of the SFT Regulation in the future, the Prospectus will be updated prior to the use of any such transaction.

VII. RISK FACTORS

1. Overview

Investors are reminded that the value of shares in any Sub-Fund and income from the same can fall as well as rise, and that they may not recover all of their initial investment. Past performance is no guarantee of future results. Investments in Sub-Funds must be seen as medium- or long-term investments. When the currency of a Sub-Fund fluctuates against the currency in which an investment in this Sub-Fund is made or those of markets in which said Sub-Fund invests, the risk of an additional loss for the investor (or the possibility of a profit) is greater. Several of the risks described below deal with investments in other undertakings for collective investment in as much as Sub-Funds can carry out such investments. The descriptions below summarise certain risks. They are not exhaustive, and under no circumstances do they constitute advice on the suitability of investments.

Regulatory provisions

The Company being domiciled in Luxembourg, the protection provided by the respective local supervisory authorities may not apply. To obtain more information on this, investors are invited to consult their financial advisors.

Investment objective

No guarantee can be given in relation to the achievement of the investment objectives of the Sub-Funds. Investors will also be aware of the investment objectives of the Sub-Funds, which can specify that Sub-Funds can invest limited amounts in sectors or areas that are not directly associated with their name. These other markets may be more or less volatile than the main investment sector or area, and performance will in part depend on these investments. Therefore, investors must ensure (prior to investment) that they are prepared to incur this type of risk to achieve the stated objectives.

2. Risk factors

Prospective investors should consider the following risk factors before investing in the Company. However, the risk factors set out below do not purport to be an exhaustive list of risks related to investments in the Company. Prospective investors should read the entire Prospectus, and where appropriate consult with their legal, tax and investment advisers, in particular regarding the tax consequences of subscribing, holding, converting, redeeming or otherwise disposing of Units under the law of their country of citizenship, residence or domicile.

Investors should be aware that the investments of the Company are subject to market fluctuations and other risks associated with investments in transferable securities and other financial instruments. The value of the investments and the resulting income may go up or down and it is possible that investors will not recoup the amount originally invested in the Company, including the risk of loss of the entire amount invested. There is no assurance that the investment objective of a particular Company will be achieved or that any increase in the value of the assets will occur. Past performance is not a reliable indicator of future results.

The net asset value of a Sub-Fund may vary as a result of fluctuations in the value of the underlying assets and the resulting income. Investors are reminded that in certain circumstances their right to redeem Shares may be suspended.

Depending on the currency of the investor's domicile, exchange-rate fluctuations may adversely affect the value of an investment in one or more of the Sub-Funds. Moreover, in the case of an alternate currency class in which the currency risk is not hedged, the result of the associated foreign exchange transactions may have a negative influence on the performance of the corresponding Share Class.

Market Risk

Market risk is a general risk which may affect all investments to the effect that the value of a particular investment could change in a way that is detrimental to the Company's interests. In particular, the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

Interest Rate Risk

Sub-Funds investing in fixed income securities may fall in value due to fluctuations in interest rates. Generally, the value of fixed income securities rises when interest rates fall. Conversely, when interest rates rise, the value of fixed income securities can generally be expected to decrease. Long term fixed income securities will normally have more price volatility than short term fixed income securities.

Foreign Exchange Risk

The Sub-Funds' investments may be made in other currencies than the relevant Reference Currency and therefore be subject to currency fluctuations, which may affect the net asset value of the relevant Sub-Funds favourably or unfavourably. Currencies of certain countries may be volatile and therefore may affect the value of securities denominated in such currencies. If the currency in which an investment is denominated appreciates against the Reference Currency of the relevant Sub-Fund, the value of the investment will increase. Conversely, a decline in the exchange rate of the currency would adversely affect the value of the investment. The Sub-Funds may enter into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than the Reference Currency, and against any increase in the cost of investments denominated in currencies other than the Reference Currency. However, there is no guarantee that the hedging will be successfully achieved. Although it is the policy of the Company to hedge the currency exposure of Sub-Funds against their respective Reference Currencies, hedging transactions may not always be possible and currency risks cannot therefore be excluded.

Credit Risk

Sub-Funds investing in fixed income securities are subject to the risk that issuers may not make payments on such securities. An issuer suffering adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity. Sub-Funds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

Counterparty Risk

Sub-Funds may enter into over-the-counter transactions which will expose the Sub-Funds to the risk that the counterparty may default on its obligation to perform under such contracts. In the event of bankruptcy of counterparty, the Sub-Funds could experience delays in liquidating the position and significant losses.

Liquidity Risk

There is a risk that the Sub-Funds will suffer liquidity issues because of unusual market conditions, an unusually high volume of redemption requests or other reasons. In such case the Sub-Funds may not be able to pay redemption proceeds within the time period stated in this Prospectus.

Management Risk

The Company and the Sub-Funds are actively managed and therefore the Sub-Funds may be subject to management risks. The relevant Investment Manager will apply its investment strategy (including investment techniques and risk analysis) when making investment decisions for the Sub-Funds, however no assurance can be given that the investment decision will achieve the desired results. The relevant Investment Manager may in certain cases decide not to use investment techniques, such as derivative instruments, or they may not be available, even under market conditions where their use could be beneficial for the relevant Sub-Fund.

3. Investment Risks**Investments in Equities**

The risks associated with investments in equity (and equity-type) securities include in particular significant fluctuations in market prices, adverse issuer or market information and the subordinate status of equity compared to debt securities issued by the same company. Investors should also consider the risk attached to fluctuations in exchange rates, possible imposition of exchange controls and other restrictions.

Investments in Fixed Income Securities

Investments in securities of issuers from different countries and denominated in different currencies offer potential benefits not available from investments solely in securities of issuers from a single country, but also involve certain significant risks that are not typically associated with investing in the securities of issuers located in a single country. Among the risks involved are fluctuations in interest rates as well as fluctuations in currency exchange rates (as further described above under Chapter "Interest Rate Risk" and "Foreign Exchange Risk") and the possible imposition of exchange control regulations or other laws or restrictions applicable to such investments. A decline in the value of a particular currency in comparison with the Reference Currency of the Sub-Fund would reduce the value of certain portfolio securities that are denominated in such a currency. An issuer of securities may be domiciled in a country other than the country in whose currency the instrument is denominated. The values and relative yields of investments in the securities markets of different countries, and their associated risks, may fluctuate independently of each other. The performance of investments in fixed income securities denominated in a specific currency will also depend on the interest rate environment in the country issuing that currency. As the net asset value of a Sub-Fund is calculated in its

Reference Currency, the performance of investments denominated in a currency other than the Reference Currency will depend on the strength of such currency against the Reference Currency and on the interest rate environment in the country issuing the currency. In the absence of other events that could otherwise affect the value of non-Reference Currency investments (such as a change in the political climate or an issuer's credit quality), an increase in the value of the non-Reference Currency can generally be expected to increase the value of a Sub-Fund's non-Reference Currency investments in terms of the Reference Currency.

The Sub-Funds may invest in investment grade debt securities. Investment grade debt securities are assigned ratings within the top rating categories by rating agencies on the basis of the creditworthiness or risk of default. Rating agencies review, from time to time, such assigned ratings and debt securities may therefore be downgraded in rating if economic circumstances impact the relevant debt securities issues.

Moreover, the Sub-Funds may invest in debt instruments in the non-investment grade sector (high yield debt securities). Compared to investment grade debt securities, high yield debt securities are generally lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default attached to these debt instruments.

Investments in High Yield Securities

High yield securities (sometimes referred to as "junk bonds") are debt securities that are rated below investment grade, are unrated and deemed by the Investment Manager to be below investment grade, or are in default at the time of purchase. These securities are regarded as being predominately speculative as to the issuer's ability to make payments of principal and interest and have a much greater risk of default (or in the case of bonds currently in default, of not returning principal) and may be more volatile than higher-rated securities of similar maturity. The risk of loss due to default by these issuers is significantly greater because high yield securities generally are unsecured and frequently are subordinated to the prior payment of senior indebtedness. The market values of certain of these securities also tend to be more sensitive to individual corporate developments and changes in economic conditions than higher quality bonds. Issuers of high yield debt securities may be highly leveraged and may not have available to them more traditional methods of financing. An economic recession may adversely affect an issuer's financial condition and the market value of high yield debt securities issued by such entity. The issuer's ability to service its debt obligations may be adversely affected by specific issuer developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. In the event of bankruptcy of an issuer, the relevant Sub-Fund may experience losses and incur costs. The value of these securities can be affected by overall economic conditions, interest rates, and the creditworthiness of the individual issuers. Additionally, these securities may be less liquid and more difficult to value than higher-rated securities. If

an issuer of high yield securities calls the obligation for redemption, a Sub-Fund may have to replace the security with a lower yielding security, resulting in a decreased return for investors. Also, as the principal value of bonds moves inversely with movements in interest rates, in the event of rising interest rates the value of the securities held by a Sub-Fund may decline proportionately more than a portfolio consisting of higher rated securities. If a Sub-Fund experiences unexpected net redemptions, it may be forced to sell its higher rated bonds, resulting in a decline in the overall credit quality of the securities held by the Sub-Fund and increasing the exposure of the Sub-Fund to the risks of lower rated securities.

Although a truly diversified global portfolio should include a certain level of exposure to high yield bonds, an investment in any one high yield securities Sub-Fund should not constitute a substantial portion of any investor's portfolio and may not be appropriate for all investors.

Investments in Warrants

The leveraged effect of investments in warrants and the volatility of warrant prices make the risks attached to investments in warrants higher than in the case of investment in equities. Because of the volatility of warrants, the volatility of the share price of any Sub-Fund investing in warrants may potentially increase.

Investments in Target Companies

Investors should note that investments in target fund may incur the same costs both at the Sub-Fund level and at the level of the target funds. Furthermore, the value of the units or shares in the target funds may be affected by currency fluctuations, currency exchange transactions, tax regulations (including the levying of withholding tax) and any other economic or political factors or changes in the countries in which the target Company is invested, along with the risks associated with exposure to the emerging markets. The investment of the Sub-Fund's assets in units or shares of target funds entails a risk that the redemption of the units or shares may be subject to restrictions, with the consequence that such investments may be less liquid than other types of investment.

Use of Derivatives

While the use of financial derivative instruments can be beneficial, derivatives also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. Derivatives are highly specialized financial instruments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself, without there being any opportunity to observe the performance of the derivative under all possible market conditions.

If a derivative transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price. Since many derivatives have a leverage component, adverse changes in the value or level of the underlying asset, rate or index may result in a loss substantially

greater than the amount invested in the derivative itself.

The other risks associated with the use of derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Many derivatives are complex and are often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to the relevant Sub-Fund. Consequently, the Company's use of derivatives may not always be an effective means to achieve the Sub-Fund's investment objective and may sometimes even have the contrary effect.

Derivative instruments also carry the risk that a loss may be sustained by the Company as a result of the failure of the counterparty to a derivative to comply with the terms of the contract (as further described under "Counterparty Risk" above). The default risk for exchange-traded derivatives is generally less than for privately negotiated derivatives, since the clearing house, which is the issuer or counterparty to each exchange-traded derivative, assumes a guarantee of performance. In addition, the use of credit derivatives (credit default swaps, credit linked notes) carries the risk of a loss arising for the relevant Sub-Fund if one of the entities underlying the credit derivative defaults.

Moreover, OTC derivatives may bear liquidity risks. The counterparties with which the Sub-Fund effects transactions might cease making markets or quoting prices in certain of the instruments. In such cases, the Sub-Fund might not be in a position to enter into a desired transaction in currencies, credit default swaps or total return swaps or to enter into an offsetting transaction with respect to an open position which might adversely affect its performance. Unlike exchange-traded derivatives, forward, spot and option contracts on currencies do not provide the Management Company or the Investment Manager with the possibility to offset the Sub-Fund's obligations through an equal and opposite transaction. Therefore, through entering into forward, spot or options contracts, the Sub-Fund may be required, and must be able, to perform its obligations under these contracts. The use of derivative instruments may or may not achieve its intended objective.

Investments in Hedge Fund Indices

In addition to the risks entailed in traditional investments (such as market, credit and liquidity risks), investments in hedge fund indices entail a number of specific risks that are set out below.

The hedge fund underlying the respective index, as well as their strategies, are distinguished from traditional investments primarily by the fact that their investment strategy may involve the short sale of securities and, on the other hand, by using borrowings and derivatives, a leverage effect may be achieved. The leverage effect entails that the value of a fund's assets increases faster if capital gains arising from investments financed by borrowing exceed the related costs, notably the interest on

borrowed monies and premiums payable on derivative instruments. A fall in prices, however, causes a faster decrease in the value of the Sub-Fund's assets. The use of derivative instruments, and in particular of short selling, can in extreme cases lead to a total loss in value.

Most of the hedge fund underlying the respective index were established in countries in which the legal framework, and in particular the supervision by the authorities, either does not exist or does not correspond to the standards applied in western Europe or other comparable countries. The success of hedge fund depends in particular on the competence of the fund managers and the suitability of the infrastructure available to them.

These financial indices shall be chosen in accordance with the eligibility criteria as set out in Article 9 of the Grand Ducal Regulation of 8 February 8, 2008 clarifying Article 44 of the 2010 Law.

Investments in Goods, Commodity and Real Estate Indices

In addition to the risks entailed in traditional investments (such as market, credit and liquidity risks), investments in goods, commodity and real estate indices are subject to greater price fluctuations compared to traditional investments. When included in a broadly diversified portfolio, however, investments in goods, commodity and real estate indices generally show only a low correlation to traditional investments. These financial indices shall be chosen in accordance with the eligibility criteria as set out in Article 9 of the Grand Ducal Regulation of 8 February 2008 clarifying Article 44 of the 2010 Law.

Investments in Illiquid Assets

Sub-Funds may invest up to 10% of the total net assets of each Sub-Fund in securities which are not traded on stock exchanges or regulated markets. It may therefore be the case that the Sub-Fund cannot readily sell such securities. Moreover, there may be contractual restrictions on the resale of such securities. In addition, the Sub-Fund may under certain circumstances trade futures contracts or options thereon. Such instruments may also be subject to illiquidity in certain situations when, for example, market activity decreases, or when a daily fluctuation limit has been reached. Most futures exchanges restrict the fluctuations in future contract prices during a single day by regulations referred to as "daily limits". During a single trading day no trades may be executed at prices above or below these daily limits. Once the price of a futures contract has increased or decreased to the limit, positions can neither be purchased nor compensated. Futures prices have occasionally moved outside the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the Sub-Fund from promptly liquidating unfavourable positions and therefore result in losses.

For the purpose of calculating the net asset value, certain instruments, which are not listed on an exchange, for which there is limited liquidity, will be valued based upon the average price taken from at least two major primary dealers. These prices may affect the price at which Shares are redeemed or purchased. There is no guarantee that in the event of a sale of such instruments the price thus calculated can be achieved.

Investments in Asset-Backed Securities and Mortgage-Backed Securities

Sub-Funds may have exposure to asset-backed securities ("ABS") and mortgage-backed securities ("MBS"). ABS and MBS are debt securities issued by a special purpose vehicle (SPV) with the aim to pass through of liabilities of third parties other than the parent company of the issuer. Such securities are secured by an asset pool (mortgages in the case of MBS and various types of assets in the case of ABS). Compared to other traditional fixed income securities such as corporate or government issued bonds, the obligations associated with these securities may be subject to greater counterparty, liquidity and interest rate risks as well as other types of risks, such as reinvestment risk (arising from included termination rights, prepayment options), credit risks on the underlying assets and advance repayments of principal resulting in a lower total return (especially, if repayment of the debt is not concurrent with redemption of the assets underlying the claims). ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility.

Small to medium-sized Companies

Sub-Funds may invest in small and medium-sized companies. Investing in the securities of smaller, lesser-known companies involves greater risk and the possibility of price volatility due to the specific growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks and the greater sensitivity of smaller companies to changing market conditions.

Hedged Share Class Risk

The hedging strategy applied to hedged Share Classes may vary from one Sub-Fund to another. Each Sub-Fund will apply a hedging strategy which aims to reduce currency risk between the Reference Currency of the respective Sub-Fund and the nominal currency of the hedged Share Class while taking various practical considerations into account. The hedging strategy aims to reduce, however may not totally eliminate, currency exposure.

Investors should note that there is no segregation of liabilities between the individual Share Classes with a Sub-Fund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a hedged Share Class could result in liabilities affecting the net asset value of the other Share Classes of the same Sub-Fund. In such case assets of other Share Classes of such Sub-Fund may be used to cover the liabilities incurred by the hedged Share Class.

Share Classes issued in currencies with limited or non-convertibility could be subject to a higher volatility compared to hedged Classes issued in freely convertible currencies.

Any currency hedging applied to hedged share Classes will comply with ESMA Opinion 34-43-296 as may be implemented in Luxembourg.

Clearing and Settlement Procedures

Different markets also have different clearing and settlement procedures. Delays in settlement may result in temporary periods when a portion of the assets of a Sub-Fund is uninvested and no return is earned thereon. The inability of the Management Company and Investment Manager to make intended security purchases due to settlement problems could cause a Sub-Fund to miss attractive investment opportunities. Inability to dispose of portfolio securities due to settlement problems could result either in losses to a Sub-Fund due to subsequent declines in value of the portfolio security or, if a Sub-Fund has entered into a contract to sell the security, could result in possible liability to the purchaser.

Investment Countries

The issuers of fixed income securities and the companies, the shares of which are purchased, are generally subject to different accounting, auditing and financial reporting standards in the different countries of the world. The volume of trading, volatility of prices and liquidity of issuers may vary from one market or country to another. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws of some countries may limit the Sub-Fund's ability to invest in securities of certain issuers located in those countries.

Concentration in certain Countries

Where a Sub-Fund restricts itself to investing in securities of issuers located in a particular country or group of countries, such concentration will expose the Sub-Fund to the risk of adverse social, political or economic events which may occur in that country or countries. The risk increases if the country in question is an emerging market. Investments in such Sub-Funds are exposed to the risks described below, which may be exacerbated by the special factors pertaining to this emerging market.

Investments in Emerging Countries

Investors should note that certain Sub-Funds may invest in less developed or emerging markets. Investing in emerging markets may carry a higher risk than investing in developed markets. The securities markets of less developed or emerging markets are generally smaller, less developed, less liquid and more volatile than the securities markets of developed markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in less developed or emerging markets, which

could affect the investments in those countries. The assets of Sub-Funds investing in such markets, as well as the income derived from the Sub-Fund, may also be effected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the net asset value of Shares of these Sub-Funds may be subject to significant volatility. Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such markets may be subject to unexpected closure.

In addition, there may be less government supervision, legal regulation and less well defined tax laws and procedures than in countries with more developed securities markets. Moreover, settlement systems in emerging markets may be less well organised than in developed markets. Thus, there may be a risk that settlement may be delayed and that cash or securities of the concerned Sub-Funds may be in jeopardy because of failures or of defects in the systems. In particular, market practice may require that payment shall be made prior to receipt of the security which is being purchased or that delivery of a security must be made before payment is received. In such cases, default by a broker or bank through whom the relevant transaction is effected might result in a loss being suffered by the Sub-Funds investing in emerging market securities.

Industry/Sector Risk

Sub-Funds may invest in specific industries or sectors or a group of related industries. These industries or sectors may, however, be affected by market or economic factors, which could have a major effect on the value of the Sub-Fund's investments.

Specific risks linked to securities lending and repurchase transactions

In relation to repurchase transactions, investors must notably be aware that (A) in the event of the failure of the counterparty with which cash of a Sub-Fund has been placed there is the risk that collateral received may yield less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Company to meet redemption requests, security purchases or, more generally, reinvestment; and that (C) repurchase transactions will, as the case may be, further expose a Sub-Fund to risks similar to those associated with optional or forward derivative financial instruments, which risks are further described in other sections of this prospectus.

In relation to securities lending transactions, investors must notably be aware that (A) if the borrower of securities lent by a Sub-Fund fail to return these there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the

collateral is traded; that (B) in case of reinvestment of cash collateral such reinvestment may (i) create leverage with corresponding risks and risk of losses and volatility, (ii) introduce market exposures inconsistent with the objectives of the Sub-Fund, or (iii) yield a sum less than the amount of collateral to be returned; and that (C) delays in the return of securities on loans may restrict the ability of a Sub-Fund to meet delivery obligations under security sales

As regards securities lending transactions, investors must be aware in particular that (A) if the borrower of the securities lent by a Sub-Fund does not return them, there is a risk that the guarantee received will realise a value that is less than that of the securities lent, due to an inaccurate valuation of the guarantee, unfavourable fluctuations in the market, a deterioration in the credit rating of the issuers of the guarantee or the illiquidity of the market on which the guarantee is traded; and that (B) delays in the return of securities lent can limit the ability of a Sub-Fund to honour delivery obligations by virtue of sales of securities.

Investment in Russia and the Commonwealth of Independent States

Investment in Russia and Countries number of the Commonwealth of Independent States ("CIS") CIS through the MICEX-RTS stock exchange or other outside markets are exposed to greater risk in terms of ownership and custody of securities. The MICEX-RTS stock exchange is currently the sole Regulated Market in Russia. Investment in Russia by a Sub-Fund through a non-Regulated Market cannot exceed 10% of the net assets of the relevant Sub-Fund.

There are significant risks inherent to investment in Russia and the CIS that include: (a) Delays in the settlement of transactions and the risk of losses resulting from systems for the registration and custody of securities; (b) the lack of provisions in terms of corporate governance and rules and regulations relating to investor protection; (c) omnipresent corruption, insider trading and criminality in the economic systems of Russia and the CIS; (d) difficulties associated with obtaining precise market values of shares in numerous companies in Russia and the CIS, in part due to the limited volume of information available to the public; (e) tax regulations are ambiguous and obscure, and there is a risk of being subject to arbitrary or heavy taxes; (f) the overall financial situation of Russian companies and companies from the CIS, which can mean particularly large volumes of debt between companies; (g) banks and other financial systems are not well-developed or regulated and, therefore, tend not to be tested and have low credit ratings; and (h) the risk that the governments of Russia and member states of the CIS or other executive or legislative bodies can decide to withdraw support for economic reform programs in place since the fall of the Soviet Union.

As a rule, the concept of fiduciary duty among company managers does not exist. Local laws and regulations cannot prevent or limit a major amendment to the structure of a company by its managers without the consent of its shareholders. Recourse to the courts for foreign investors in the event of a breach of local laws,

regulations or contracts cannot be guaranteed. Regulations governing investments in transferable securities may not exist, or may be applied in an arbitrary and inconsistent manner.

In a number of cases, proof of legal claim will be kept in the form of a deed and a Sub-Fund could lose the record of ownership of its securities as a result of fraud, negligence or even omission. In Russia and the CIS, securities are issued only in the form of a deed and records of ownership are kept by registrars who are under contract with the issuers. Register agents are not agents of the Company, the Depositary Bank or their local agents in Russia or the CIS, and are not of their responsibility. Assignees have no right of ownership to the securities, since their names do not appear in the register of owners of securities of the issuer. Laws and practices relating to the registration of holders of securities are not well-developed in Russia and the CIS, and the registration of securities can be delayed or not occur at all. Although custodians in Russia and the CIS retain copies of the records of the register agent (the "Records") in their premises, these records may not, however, be sufficient in a legal sense to establish ownership of securities. Moreover, a large number of securities, records and other forged and fraudulent documents are in circulation in the markets of Russia and the CIS and, as a result, there is a significant risk that the purchases of a Sub-Fund may be settled by these forged or fraudulent securities. As it is the case with other emerging markets, Russia and the CIS do not have a central point of reference for the issue or publication of information on company shares. Consequently, the Depositary Bank cannot guarantee the exhaustiveness or speed of dissemination of communications in relation to company shares.

While exposure to these share markets is to a large extent covered by the use of ADR (American Depositary Receipts) and GDR (Global Depositary Receipts), Sub-Funds can, in accordance with their investment policy, invest in securities that require the recourse to local deposit or custody services.

Contingent Convertible Fixed Income Instruments

Contingent convertible bonds are fixed income instruments that, when certain predefined events occur ("Trigger Event"), trigger their conversion from debt into equity. Such Trigger Events may occur when the issuer of the contingent convertible bonds is in crisis, as determined either by regulatory assessment or objective losses (e.g. measure of the issuer's core tier 1 capital ratio).

In addition to the liquidity risk mentioned above, investment in contingent convertible bonds may entail the following risks (non-exhaustive list):

Capital structure inversion risk: contrary to classical capital hierarchy, contingent convertible bonds' investors may suffer a loss of capital when equity holders do not.

Trigger level risk: trigger levels differ and determine exposure to conversion risk depending on the distance of the capital ratio to the trigger level. It might be

difficult for the Investment Manager of the relevant Sub-Fund to anticipate the Trigger Events that would require the debt to convert into equity.

Conversion risk: it might be difficult for the Investment Manager of the relevant Sub-Fund to assess how the securities will behave upon conversion. In case of conversion into equity, the Investment Manager might have to sell all or part of these new equity shares in order to ensure compliance with the investment policy of the Sub-Fund. This sale may itself lead to liquidity issue for these shares.

Coupon cancellation: for some contingent convertible bonds, coupon payments are entirely discretionary and may be cancelled by the issuer at any point, for any reason and for any length of time.

Call extension risk: some contingent convertible bonds are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority.

Unknown risk: the structure of contingent convertible bonds is innovative yet untested.

Valuation and Write-down risks: the value of contingent convertible bonds may need to be reduced due to a higher risk of overvaluation of such asset class on the relevant eligible markets. Therefore, a Sub-Fund may lose its entire investment or may be required to accept cash or securities with a value less than its original investment.

Industry concentration risk: investment in contingent convertible bonds may lead to an increased industry concentration risk as such securities are issued by a limited number of banks.

General: Contingent convertible instruments are currently still untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform. In the event a single issuer activates a trigger or suspends coupons, it is uncertain whether the market will view the issue as an idiosyncratic event or systemic. In the latter case, potential price contagion and volatility to the entire asset class is possible. This risk may in turn be reinforced depending on the level of underlying instrument arbitrage. Furthermore, activation of a trigger or suspension of coupon payments could cause a broader sell-off of contingent convertible instruments, thereby decreasing liquidity in the market. In an illiquid market, price formation may be increasingly stressed.

4. Risks related to investment in China A Shares through Shanghai Hong Kong Stock Connect

A Sub-Fund may invest and have direct access to certain eligible China A Shares via the Shanghai-Hong Kong Stock Connect ("Stock Connect").

Dependence upon Trading Market for China A Shares

The existence of a liquid trading market for China A Shares may depend on whether there is supply of, and demand for, China A Shares. Investors should note that the Shanghai Stock Exchange and Shenzhen Stock Exchange on which China A Shares are traded are undergoing development and the market capitalisation of, and trading volumes on, those exchanges may be lower than those in more developed financial markets. Market volatility and settlement difficulties in the China A Share markets may result in significant fluctuation in the prices of the securities traded on such markets and thereby changes in the Net Asset Value of the Sub-Fund.

China A Shares Investment Risks

Because restrictions continue to exist and capital cannot therefore flow freely into the China A Share market, it is possible that in the event of a market disruption, the liquidity of the China A Share market and trading prices of China A Shares could be more severely affected than the liquidity and trading prices of markets where securities are freely tradable and capital therefore flows more freely. In addition, the repatriation of the sale price of China A Shares may be subject to restrictions that can change at the behest of Chinese authorities.

Shanghai-Hong Kong Stock Connect Risks

A Sub-Fund may invest and have direct access to certain eligible China A Shares via the Stock Connect upon approval by the relevant regulatory authority. Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), SSE and China Securities Depository and Clearing Corporation Limited ("ChinaClear"), with an aim to achieve mutual stock market access between the mainland China and Hong Kong.

Stock Connect comprises a Northbound Trading Link and a Southbound Trading Link. Hong Kong and overseas investors (including the Sub-Funds), through their Hong Kong brokers and a securities trading service company established by the Stock Exchange of Hong Kong Limited ("SEHK"), may be able to place orders to trade eligible shares listed on SSE by routing orders to SSE.

Under Stock Connect, overseas investors (including the Sub-Funds) may be allowed, subject to rules and regulations issued/amended from time to time, to trade certain China A Shares listed on the SSE (the "SSE Securities") through the Northbound Trading Link. Initially, the eligible SSE Securities under Stock Connect include all the constituent stocks from time to time of the SSE 180 Index and SSE 380 Index, and all the SSE-listed China A Shares that are not included as constituent stocks of the relevant indices but which have corresponding H-Shares listed on SEHK, except (i) those SSE-listed shares which are not traded in Renminbi and (ii) those SSE-listed shares which are included in the "risk alert board". The list of eligible securities may be changed subject to the review and approval by the relevant Chinese regulators from time to time.

Hong Kong and overseas investors (including the Sub-Funds) may only trade and settle SSE Securities in RMB (CNH).

Further information about Stock Connect is available online at the website: http://www.hkex.com.hk/eng/market/sec_tradinfra/chinaconnect/chinaconnect.htm

Quota Limitations Risk

Stock Connect is subject to both a daily quota and an "aggregate" quota measuring total purchases and sales of securities via Stock Connect. Buy orders and sell orders offset each other for purposes of the quota. If either the daily or aggregate quota is exceeded, further buy orders will be rejected, either until the next trading day (in the case of the daily quota) or until the next trading day when sufficient aggregate quota is available. These quotas are not particular to either the Sub-Funds or the Investment Manager; instead, they apply to all market participants generally. Thus, the Investment Manager of the Sub-Funds will not be able to control the use or availability of the quota. If the Investment Manager is unable to purchase additional Stock Connect securities, it may affect the Investment Manager's ability to implement the Sub-Funds' respective investment strategies.

Suspension Risk

Both SEHK and SSE reserve the right to suspend trading if necessary for ensuring an orderly and fair market and managing risks prudently which could adversely affect the relevant Sub-Funds' ability to access the mainland China market.

Differences in Trading Day

Stock Connect only operates on days when both the mainland China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the mainland China market but Hong Kong and overseas investors (such as the Sub-Funds) cannot carry out any China A Shares trading because it is not a day when the Hong Kong market is open for trading. The Sub-Funds may be subject to a risk of price fluctuations in China A Shares during the time when Stock Connect is not trading as a result.

Clearing and Settlement and Custody Risks

The Hong Kong Securities Clearing Company Limited, a wholly-owned subsidiary of HKEx ("HKSCC") and ChinaClear establish the clearing links and each is a participant of each other to facilitate clearing and settlement of cross-boundary trades. As the national central counterparty of China's securities market, ChinaClear operates a comprehensive network of clearing, settlement and stock holding infrastructure. ChinaClear has established a risk management framework and measures that are approved and supervised by the China Securities Regulatory Commission ("CSRC"). The chances of ChinaClear default are considered to be remote.

Should the remote event of ChinaClear default occur and ChinaClear be declared as a defaulter, HKSCC will in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear's liquidation. In that event, the relevant Sub-Fund(s) may suffer delay in the recovery process or may not be able to fully recover its losses from ChinaClear.

The China A Shares traded through Stock Connect are issued in scripless form, so investors such as the Sub-Funds will not hold any physical China A Shares. Hong Kong and overseas investors, such as the Sub-Fund, who have acquired SSE Securities through the Northbound Trading Link, should maintain the SSE Securities with their brokers' or custodians' stock accounts with the Central Clearing and Settlement System operated by HKSCC for the clearing securities listed or traded on SEHK.

Further information on the custody set-up relating to Stock Connect is available upon request at the registered office of the Management Company.

Operational Risk

Stock Connect provides a new channel for investors from Hong Kong and overseas, such as the Sub-Funds, to access the China stock market directly.

Stock Connect is premised on the functioning of the operational systems of the relevant market participants. Market participants are able to participate in this program subject to meeting certain information technology capability, risk management and other requirements as may be specified by the relevant exchange and/or clearing house.

It should be appreciated that the securities regimes and legal systems of the two markets differ significantly and in order for the trial program to operate, market participants may need to address issues arising from the differences on an on-going basis.

Further, the "connectivity" in the Stock Connect program requires routing of orders across the border. This requires the development of new information technology systems on the part of the SEHK and exchange participants (i.e. a new order routing system ("China Stock Connect System") to be set up by SEHK to which exchange participants need to connect). There is no assurance that the systems of the SEHK and market participants will function properly or will continue to be adapted to changes and developments in both markets. In the event that the relevant systems failed to function properly, trading in both markets through the program could be disrupted. The Sub-Fund's ability to access the China A Share market (and hence to pursue their investment strategy) will be adversely affected.

Recalling Risk and Trading Restrictions

A stock may be recalled from the scope of eligible SSE Securities for trading via Stock Connect for various reasons, and in such event the stock can only be sold but is restricted from being bought. The Investment Manager's ability to implement the Sub-Funds' investment strategies may be adversely affected.

Nominee Arrangements in Holding China A Shares

HKSCC is the "nominee holder" of the SSE securities acquired by overseas investors (including the relevant Sub-Fund(s)) through Stock Connect. The CSRC Stock Connect rules expressly provided that investors enjoy the rights and benefits of the SSE securities acquired through Stock Connect in accordance with applicable laws. However, the courts in China may consider that any nominee or custodian as registered holder of SSE securities would have full ownership thereof, and that even if the concept of beneficial owner is recognized under Chinese law those SSE securities would form part of the pool of assets of such entity available for distribution to creditors of such entities and/or that a beneficial owner may have no rights whatsoever in respect thereof. Consequently, the Sub-Fund and the Depositary Bank cannot ensure that the Sub-Fund's ownership of these securities or title thereto is assured in all circumstances.

Under the rules of the Central Clearing and Settlement System operated by HKSCC for the clearing of securities listed or traded on SEHK, HKSCC as nominee holder shall have no obligation to take any legal action or court proceeding to enforce any rights on behalf of the investors in respect of the SSE securities in China or elsewhere. Therefore, although the relevant Sub-Funds' ownership may be ultimately recognised, these Sub-Funds may suffer difficulties or delays in enforcing their rights in China A Shares.

To the extent that HKSCC is deemed to be performing safekeeping functions with respect to assets held through it, it should be noted that the Depositary Bank and the Sub-Fund will have no legal relationship with HKSCC and no direct legal recourse against HKSCC in the event that the Sub-Fund suffers losses resulting from the performance or insolvency of HKSCC.

Investor Compensation

Investments of the Sub-Fund through Northbound trading under Stock Connect will not be covered by Hong Kong's Investor Compensation Fund. Hong Kong's Investor Compensation Company is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong.

Since default matters in Northbound trading via Stock Connect do not involve products listed or traded in SEHK or Hong Kong Futures Exchange Limited, they will not be covered by the Investor Compensation Company. On the other hand, since

the Sub-Fund is carrying out Northbound trading through securities brokers in Hong Kong but not mainland Chinese brokers, therefore they are not protected by the China Securities Investor Protection Company in China.

Local Market Rules, Foreign Shareholding Restrictions and Disclosure Obligations

Under Stock Connect, China listed companies and trading of China A Shares are subject to market rules and disclosure requirements in the China stock market. Any changes in laws, regulations and policies of the China A Shares market or rules in relation to Stock Connect may affect share prices. The Investment Manager should also take note of the foreign shareholding restrictions and disclosure obligations applicable to China A Shares.

The Sub-Funds will be subject to restrictions on trading (including restriction on retention of proceeds) in China A Shares as a result of its interest in the China A Shares. The Investment Manager is solely responsible for compliance with all notifications, reports and relevant requirements in connection with its interests in China A Shares.

Under the current mainland China rules, once an investor holds more than 5% of the shares of a company listed on the SSE, the investor is required to disclose his interest within three working days and during which he cannot trade the shares of that company. The investor is also required to disclose any change in his shareholding and comply with related trading restrictions in accordance with the Mainland China rules. According to existing Mainland China practices, the Sub-Funds as beneficial owners of China A Shares traded via Stock Connect cannot appoint proxies to attend shareholders' meetings on its behalf.

Regulatory Risk

The CSRC Stock Connect rules are departmental regulations having legal effect in China. However, the application of such rules is untested, and there is no assurance that Chinese courts will recognise such rules, e.g. in liquidation proceedings of Chinese companies.

Stock Connect is novel in nature, and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the mainland China and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under Stock Connect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that Stock Connect will not be abolished. The relevant Sub-Funds which may invest in mainland China markets through Stock Connect may be adversely affected as a result of such changes.

PRC tax consideration

The Management Company and/or Investment Managers reserve the right to provide for tax on gains of the relevant Sub-Fund that invests in PRC securities thus impacting the valuation of the relevant Sub-Funds. With the uncertainty of whether and how certain gains on PRC securities are to be taxed, the possibility of the laws, regulations and practice in the PRC changing, and the possibility of taxes being applied retrospectively, any provision for taxation made by the Management Company and/or the Investment Managers may be excessive or inadequate to meet final PRC tax liabilities on gains derived from the disposal of PRC securities. Consequently, investors may be advantaged or disadvantaged depending upon the final outcome of how such gains will be taxed, the level of provision and when they purchased and/or sold their shares in/from the relevant Company.

On 14 November 2014, the Ministry of Finance, State of Administration of Taxation and CSRC jointly issued a notice in relation to the taxation rule on the Stock Connect under Caishui 2014 No.81 ("Notice No.81"). Under Notice No.81, Corporate income tax, individual income tax and business tax will be temporarily exempted on gains derived by Hong Kong and overseas investors (such as the Companies) on the trading of China A-Shares through the Stock Connect with effect from 17 November 2014. However, Hong Kong and overseas investors (such as the Companies) are required to pay tax on dividends and/or bonus shares at the rate of 10% which will be withheld and paid to the relevant authority by the listed companies.

5. Risk related to Contingent Convertible Bonds

Capital structure inversion risk

Contrary to classical capital hierarchy, contingent convertible bonds' investors may suffer a loss of capital when equity holders do not.

Trigger level risk

Trigger levels differ and determine exposure to conversion risk depending on the distance of the capital ratio to the trigger level. It might be difficult for the Investment Manager to anticipate the triggering events that would require the debt to convert into equity.

Coupon cancellation

For some contingent convertible bonds, coupon payment are entirely discretionary and may be cancelled by the issuer at any point for any reason and for any length of time.

Call extension risk

Some contingent convertible bonds are issued as perpetual instruments, callable at predetermined levels only with the approval of the competent authority.

Unknown risk

The structure of the instruments is innovative yet untested.

Conversion risk

It might be difficult for the Investment Manager to assess how the securities will behave upon conversion. In case of conversion into equity, the Investment Manager might be forced to sell these new equity shares because the investment policy of the Sub-Fund does not allow equity in its portfolio. This forced sale may itself lead to liquidity issue for these shares.

Write-down risk

Should a contingent convertible bonds undergo a write-down, the contingent convertible bonds' investors may lose some or all of its original investment.

Industry concentration risk

To the extent that the investments are concentrated in a particular industry, the contingent convertible bonds' investors will be susceptible to loss due to adverse occurrences affecting that industry

Yield/Valuation risk

Investors have been drawn to the instrument as a result of the contingent convertible bonds' often attractive yield which may be viewed as a complexity premium.

Yield has been a primary reason this asset class has attracted strong demand, yet it remains unclear whether investors have fully considered the underlying risks. Relative to more highly rated debt issues of the same issuer or similarly rated debt issues of other issuers, contingent convertible bonds tend to compare favourably from a yield standpoint. The concern is whether investors have fully considered the risk of conversion or, for Additional Tier 1 contingent convertible bonds, coupon cancellation.

Liquidity risk

In certain circumstances finding a ready buyer for contingent convertible bonds may be difficult and the seller may have to accept a significant discount to the expected value of the contingent convertible bond in order to sell it.

VIII. SHARES

The Board of Directors may, for a single Sub-Fund, issue one or more Class of Shares distinguished either by a particular distribution policy, sales or redemptions commission structure, management and advisory commission structures, specific distribution commissions structures or by any other distinctive criteria.

The subscription price for shares in each Class is invested in the assets of the relevant Sub-Fund. In principle, all assets and liabilities related to a specific Class of Shares are allocated to that Class. To the extent that costs and expenses are not directly chargeable to a specific Class, they shall be shared proportionally among the various Classes of Shares according to their net asset values or, if circumstances warrant it, allocated equally among the Classes of Shares. The same applies *mutatis mutandis* to Sub-Funds. The assets of a specific Sub-Fund will only meet the liabilities, commitments and obligations relating to such Sub-Fund.

All shares, of whichever Sub-Fund or Class of Shares, will be issued in registered form only. No certificate will be issued. All holders of the shares will have their names entered into the shareholders' register which will be held at the Company's registered office. Investors subscribing through a nominee may, unless prevented by applicable rules and regulations, request to be inscribed directly in the shareholders' register.

Shareholders will only receive confirmation that their names have been recorded in the shareholders' register.

Fractions of shares up to three decimals will be issued.

Fractions of shares do not carry voting rights but entitle to the relevant fraction of the net assets attributable to the relevant Class of Shares.

All shares must be fully paid-up and do not confer any preferential or pre-emption rights. Each whole share of the Company carries one vote in all general meetings of shareholders, in accordance with Luxembourg law and the Articles.

Hedged Classes

Classes not denominated in the reference currency of the Sub-Fund (the "Reference Currency") and designated as hedged ("H") will systematically and fully (as described below) hedge their currency exposure to the Reference Currency (the "Hedged Classes"), in the forward currency market, whether the exposure is declining or increasing in value relative to the Reference Currency.

Any fees relating to the hedging strategy will be borne by the relevant Hedged Class. Any gains or losses from the currency hedging shall accrue to the relevant Hedged Class. The costs and effects of this hedging will be reflected in the Net Asset Value and in the performance of the relevant Class.

Whilst holding hedged shares may substantially protect the investor against losses due to unfavorable movements in the exchange rates of the Reference Currency against the reference currency of a Class, holding such shares may also substantially limit the benefits of the investor in case of favorable movements. Investors should

note that it will not be possible to always fully hedge the total Net Asset Value of the Hedged Class against currency fluctuations of the Reference Currency, the aim being to implement a currency hedge equivalent to between 95% and 105% of the Net Asset Value of the respective Hedged Class. Changes in the value of the portfolio or the volume of subscriptions and redemptions may however lead to the level of currency hedging temporarily surpassing the limits set out above. In such cases, the currency hedge will be adjusted without undue delay. The Net Asset Value per Class of the Hedged Classes does therefore not necessarily develop in the same way as that of the Classes in Reference Currency. It is not the intention of the Company to use the hedging arrangements to generate a further profit for the Hedged Classes.

Investors should note that there is no segregation of liabilities between the individual Classes within a Sub-Fund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a Hedged Class could result in liabilities affecting the Net Asset Value of the other Classes of the same Sub-Fund. In such case assets of other Classes of such Sub-Fund may be used to cover the liabilities incurred by the Hedged Class.

IX. ISSUANCE OF SHARES

The Company may for each Sub-Fund issue shares at a price calculated as of each Valuation Day (see section "Calculation and Publication of the Net Asset Value of Shares and the Issue, Redemption and Conversion Prices of Shares").

For each Class of Shares, the subscription price shall be equal to the Net Asset Value of a share as of the relevant Valuation Day, plus any charges as described for each Sub-Fund in the Appendix.

The Board of Directors may impose a minimum subscription and minimum holding requirement for each registered shareholder in the different Sub-Funds and/or different Classes of Shares within each Sub-Fund as set out in the Appendix. The Board of Directors may also impose subsequent minimum subscription requirements. It may decide to waive, at its discretion, any such minimum subscription, minimum holding and subsequent minimum subscription amounts.

Shareholders wishing to subscribe for shares in the Company must make an irrevocable subscription request by sending such request to the Registrar and Transfer Agent or the Company.

Shares will be allotted as of the relevant Valuation Day.

The subscription price will be payable in the Reference Currency of the shares being subscribed.

Shares may be issued, at the discretion of the Board of Directors, against contributions in kind. However, assets so contributed have to comply with the investment policies of the Sub-Fund concerned as disclosed in the present Prospectus. The assets contributed to the Sub-Funds at the conditions mentioned above will be subject, if required by applicable laws and regulations, to a special report of the approved statutory auditor of the Company.

Any costs relating to such contributions in kind including the aforementioned report are borne by the relevant investor or by a third party, but will not be borne by the Company unless the Board of Directors considers that the subscription in kind is in the interest of the Company or made to protect the interests of the Company

Unless otherwise provided in the Appendix, the subscription price for each share must be available to the Company on an account of the Depositary Bank in cleared monies within two Business Days following the relevant Valuation Day applicable to such subscription (unless otherwise stated in the relevant Appendix), otherwise the subscription may be cancelled.

No shares of a given Sub-Fund will be issued in case the calculation of the Net Asset Value per share of this Sub-Fund is temporarily suspended by the Company.

Institutional Investors

As detailed in the Appendix, the sale of shares of certain Classes of Shares may be restricted to Institutional Investors and the Company will not issue or give effect to any transfer of shares of such Classes to any investor who may not be considered an Institutional Investor.

The Company may, at its discretion, delay the acceptance of any subscription for shares of a class restricted to Institutional Investors until such date as it has received sufficient evidence on the qualification of the investor as an Institutional Investor.

Ineligible Applicants

The Company requires each prospective applicant for shares to represent and warrant to the Company that, among other things, he is able to acquire and hold shares without violating applicable laws and that he fulfils any eligibility requirements in relation to such shares as detailed in the Appendix for each Sub-Fund.

The shares may not be offered, issued or transferred to any person in circumstances which, in the opinion of the Board of Directors, might result in the Company incurring any liability to taxation or suffering any other disadvantage which the Company might not otherwise incur or suffer, or would result in the Company being required to register under any applicable foreign (including US) securities laws or would result in the Shares being held directly or indirectly by a US Person.

The Administrative Agent is entitled to refuse any subscription, transfer or conversion

application accordingly.

Subject as mentioned above, shares are freely transferable. The Board of Directors may refuse to register a transfer which would result in (i) a breach of the applicable sale and transfer restrictions (including not fulfilling the relevant eligibility requirements of a Class of Shares), (ii) either the transferor or the transferee remaining or being registered (as the case may be) as the holder of shares in a Sub-Fund valued at less than the minimum holding requirement , or (iii) a US Person holding shares, either as an immediate consequence or in the future.

The Company will require from each registered shareholder acting on behalf of other investors that any assignment of rights to shares be made in compliance with applicable securities laws in the jurisdictions where such assignment is made and that in unregulated jurisdictions such assignment be made in compliance with the applicable sale and transfer restrictions and minimum holding requirement.

Prevention of money laundering and terrorist financing

In accordance with international regulations and Luxembourg laws and regulations (including, but not limited to, the amended Law of 12 November 2004 on the fight against money laundering and financing of terrorism), the Grand Ducal Regulation dated 1 February 2010, CSSF Regulation 12-02 of 14 December 2012, CSSF Circulars 13/556 and 15/609 concerning the fight against money laundering and terrorist financing, and any respective amendments or replacements, obligations have been imposed on all professionals of the financial sector in order to prevent undertakings for collective investment from occurrences of money laundering and financing of terrorism. As a result of such provisions the register and transfer agent of a Luxembourg undertaking for collective investment must ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. The register and transfer agent may require subscribers to provide any document it deems necessary to effect such identification. In addition, the register and transfer agent, as delegate of the Company, may require any other information that the Company may require in order to comply with its legal and regulatory obligations, including but not limited to the CRS Law and the FATCA Law.

In case of delay or failure by an applicant to provide the required documentation, the subscription request will not be accepted and in the event of redemption, payment of redemption proceeds delayed. Neither the undertaking for collective investment nor the register and transfer agent will be held responsible for said delay or for failure to process deals resulting from not providing documentation or providing incomplete documentation.

From time to time, shareholders may be asked to supply additional or updated identification documents in accordance with clients' on-going due diligence obligations according to the relevant laws and regulations.

X. REDEMPTION OF SHARES

Pursuant to the Articles and subject as provided below, each shareholder of the Company has the right to request the Company to redeem all or some of the shares he/she/it holds as of any Valuation Day.

Shareholders who wish all or some of their shares to be redeemed by the Company must make an irrevocable redemption request by sending such request to the Registrar and Transfer Agent or the Company.

The Redemption Price for each Class of Shares is equal to the Net Asset Value per share as of the applicable Valuation Day less any charges set forth in the Appendix for the relevant Sub-Fund.

Unless otherwise provided for in the Appendix, the Redemption Price will in principle be paid no later than three (3) Business Days after the relevant Valuation Day.

Payment will be made by bank transfer to the account specified by the relevant shareholder.

The Redemption Price will be paid in the Reference Currency of the relevant Class of Shares.

With the consent of or upon request of the shareholder(s) concerned, the Board of Directors may (subject to the principle of equal treatment of shareholders) satisfy redemption requests in whole or in part in kind by allocating to the redeeming shareholders investments from the portfolio in value equal to the Net Asset Value attributable to the shares to be redeemed. Such redemption will, if required by law or regulation, be subject to a special audit report by the statutory approved auditor of the Company confirming the number, the denomination and the value of the assets which the Board of Directors will have determined to be allocated in counterpart of the redeemed shares. The costs for such redemptions in kind, in particular the costs of the special audit report, will be borne by the shareholder requesting the redemption in kind or by a third party, but will not be borne by the Company unless the Board of Directors considers that the redemption in kind is in the interest of the Company or made to protect the interests of the Company.

If, because of applications for redemption or conversion, it is necessary on a given Valuation Day to repurchase or convert more than 10% of the shares issued in a particular Sub-Fund, the Board of Directors may decide that redemptions or conversions exceeding such threshold have to be postponed to the next Valuation Day for that Sub-Fund. On that Valuation Day, applications for redemption or conversion which had been postponed shall be given priority over applications for redemption or conversion received in relation to that Valuation Day (and which had not been postponed).

Compulsory Redemptions

The Board of Directors have the right to require the compulsory redemption of all shares held by or for the benefit of a shareholder if the Board of Directors determine that the shares are held by or for the benefit of any shareholder who is or becomes an Ineligible Applicant as described under "Subscriptions". The Company also reserves the right to require compulsory redemption of all shares held by a shareholder in a Sub-Fund if the Net Asset Value of the shares held in such Sub-Fund by the shareholder is less than the applicable minimum holding requirement, as specified in the Appendix.

Shareholders are required to notify the Company immediately if at any time they become US Persons, hold shares for the account or benefit of US Persons or otherwise become Ineligible Applicants.

When the Board of Directors become aware that a shareholder (A) is a US Person or is holding shares for the account or benefit of a US Person; (B) is holding shares in breach of any law or regulation or otherwise in circumstances having or which may have adverse regulatory, tax, pecuniary or material administrative disadvantages for the Company or its shareholders; or (C) has failed to provide any information or declaration required by the Board of Directors within ten days of being requested to do so, the Board of Directors will either (i) direct such shareholders to redeem or to transfer the relevant shares to a person who is qualified or entitled to own or hold such shares or (ii) redeem the relevant shares.

If it appears at any time that a holder of shares of a Class restricted to Institutional Investors is not an Institutional Investor or that a holder of shares does not fulfil the eligibility requirements for the relevant Class of Shares, the Company will either

redeem the relevant shares in accordance with the above provisions or convert such shares into shares of a Class which is not restricted to Institutional Investors or into a Class of Shares for which the holder of shares fulfils the eligibility requirements (provided there exists such a Class with similar characteristics) and notify the relevant shareholder of such conversion.

Any person who becomes aware that he is holding shares in contravention of any of the above provisions and who fails to transfer or redeem his shares pursuant to the above provisions shall indemnify and hold harmless the Management Company, each of the Directors, the Company, the Depositary, the Administration Agent, the Investment Adviser (if any), the Investment Manager and the shareholders of the Company (each an "Indemnified Party") from any claims, demands, proceedings, liabilities, damages, losses, costs and expenses directly or indirectly suffered or incurred by such Indemnified Party arising out of or in connection with the failure of such person to comply with his obligations pursuant to any of the above provisions.

XI. CONVERSION OF SHARES

Pursuant to the Articles and the provisions below, each shareholder has the right to request the Company to convert the shares it holds in one given Class of Shares to shares of another Class within the same Sub-Fund or in another Sub-Fund, provided that the shareholder satisfies the conditions for subscription and holding of the relevant Class of Shares.

The rate at which the shares are converted is calculated by reference to the Net Asset Values of the relevant shares, as determined on the relevant Valuation Day and pursuant to the following formula:

$$A = \frac{B \times C \times D}{E}$$

where:

A: Represents the number of shares to be allocated upon conversion.

B: Represents the number of shares to be converted.

C: Represents the Net Asset Value, as at the applicable Valuation Day, of the shares to be converted.

D: Represents, if appropriate, the average exchange rate, as at the applicable Valuation Day, between the reference currencies of the two relevant Classes of Shares or Sub-Funds.

E: Represents the Net Asset Value, as at the applicable Valuation Day, of the shares to be allotted upon conversion.

Shares may be converted as of each Valuation Day in the relevant Class of Shares or Sub-Fund.

The conditions and notice formalities applicable to the redemption of shares shall apply *mutatis mutandis* to the conversion of shares.

A conversion charge, at the rate disclosed in the Appendix for the relevant Sub-Fund may be charged to shareholders. In case the conversion charge shall be for the benefit of a Sub-Fund, the conversion fee shall be identical for all conversion requests received on the same Valuation Day of that Sub-Fund.

XII. PREVENTION OF MARKET TIMING AND LATE TRADING RISKS

The Board of Directors will not knowingly authorise any practice associated with

market timing and *late trading*, and reserves the right to reject any request for the subscription or conversion of shares received from investors that the Board of Directors suspects of employing these practices or practices associated with the same and, where applicable, to take any measures necessary to protect other investors in the Company.

Market timing refers to the arbitrage technique whereby an investor systematically subscribes to and redeems or converts shares in the Company over a short period of time by exploiting time differences and/or imperfections or deficiencies of a system for calculating the Net Asset Value of shares in the Company.

Late trading refers to the acceptance of an order for the subscription, conversion or redemption of shares received after the deadline for the acceptance of orders as of the applicable Valuation Day and its execution at the price based on the Net Asset Value of the shares as of the applicable Valuation Day.

XIII. LISTING

The shares of the Company may, at the sole discretion of the Directors of the Company, be listed on the Luxembourg Stock Exchange. A list of shares so listed is available upon request from the registered office of the Company.

XIV. CALCULATION AND PUBLICATION OF THE NET ASSET VALUE OF SHARES AND THE ISSUE, REDEMPTION AND CONVERSION PRICES OF SHARES

The Net Asset Value per share for each Class of Shares is determined in each Sub-Fund under the responsibility of the Board of Directors, in the currency in which the Class of Shares is denominated.

The Net Asset Value of a share of a particular Class of Shares or from a particular Sub-Fund will be equal to the value obtained by dividing the net assets attributable to this Class of Shares or Sub-Fund by the total number of shares issued and in circulation in this Class of Shares or Sub-Fund.

The Net Asset Value per share is calculated as of each Valuation Day as determined for each Sub-Fund in the Appendix. The assets and liabilities of the Company will be determined according to the principles below:

- (a) The value of cash at hand and on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interest declared or due but not yet collected, shall be deemed to be the full value thereof. However, if it is unlikely that this value will be received in full, the value thereof will be determined deducting the amount the Company considers appropriate to reflect the true value thereof.
- (b) The value of all transferable securities listed or traded on a stock exchange will

be determined based on the last available price published on the market considered to be the main market for trading the transferable securities in question.

- (c) The value of all transferable securities traded on another regulated market, operating regularly, recognised and open to the public shall be assessed based on the most recent price available.
- (d) Inasmuch as transferable securities in a portfolio are not traded or listed on a stock exchange or another Regulated Market or if, for securities listed or traded on such an exchange or other market, the price determined in accordance with (b) or (c) above is not representative of the real value of these transferable securities, these will be valued based on their probable realisation value, which will be estimated in a prudent manner and in good faith.
- (e) The liquidation value of financial derivative instruments not traded on stock exchanges will be determined in accordance with the rules set by the Board of Directors in a prudent manner and in good faith.
- (f) Undertakings for collective investment are valued at the latest known Net Asset Value or sale price in the event that prices are listed.
- (g) All other securities and assets are valued at their probable realisation value estimated in a prudent manner and in good faith according to procedures established by the Board of Directors.

The value of all assets and commitments not denominated in the reference currency of the Sub-Fund will be converted into the reference currency of the Sub-Fund at the prevailing market rate of exchange as set by the Depositary Bank. If these prices are not available, the rate of exchange will be determined in a prudent manner and in good faith according to the procedures put in place by the Board of Directors.

The Board of Directors can, at its sole discretion, allow the use of any other valuation method if it considers that aforementioned valuation principles do not reflect the probable realisation value or fair value of an asset held by the Company.

Dilution

A Sub-Fund may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and of the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Sub-Fund. This is known as "dilution". In order to counter this and to protect Shareholders' interests, the Board of Directors may apply "swing pricing" as part of its daily valuation policy. This will mean that in certain circumstances the Board of Directors may make adjustments in the calculations of the Net Asset Values per Share, to counter the impact of dealing and

other costs on occasions when these are deemed to be significant.

The Board of Directors may alternatively decide to charge a dilution levy on subscriptions or redemptions, as described below.

Swing Pricing

If on any Valuation Day the aggregate value of transactions in shares of a Sub-Fund results in a net increase or decrease of shares which exceeds a threshold set by the Board of Directors from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the Net Asset Value of the Sub-Fund will be adjusted by an amount (not exceeding 2% of that Net Asset Value) which reflects both the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment will be an addition when the net movement results in an increase of all Shares of the Company and a deduction when it results in a decrease.

Dilution Levy

The Company has the power to charge a "dilution levy" of up to 1% of the applicable NAV on individual subscriptions or redemptions, such "dilution levy" to accrue to the affected Sub-Fund. The Company will operate this measure in a fair and consistent manner to reduce dilution and only for that purpose and such dilution levy will not be applied if the swing pricing mechanism is used.

XV. TEMPORARY SUSPENSION OF THE CALCULATION OF THE NET ASSET VALUE OF SHARES AND THE ISSUE, REDEMPTION AND CONVERSION PRICES OF SHARES

The Company may suspend the calculation of the Net Asset Value per share of a given Sub-Fund or Class of Shares and, if necessary, the issue, redemption and conversion of shares of this Sub-Fund or Class of Shares under certain circumstances. These circumstances may include:

- a) during any period when any market or stock exchange, on which a material part of the investments of the relevant Sub-Fund for the time being is quoted, is closed, or during which dealings are substantially restricted or suspended;
- b) during the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets owned by the Company attributable to such Sub-Fund would be impracticable;
- c) during any breakdown or restriction in the use of the means of communication normally employed to determine the price or value of any of the investments attributable to such Sub-Fund or the current prices or values of any stock exchange;
- d) during any period when the Company is unable to repatriate monies for the

purpose of making payments on the redemption of such shares or during which any transfer of monies involved in the realisation or acquisition of investments or payments due on redemption of such shares cannot, in the opinion of the Board of Directors, be effected at normal rates of exchange;

- e) during any period when in the opinion of the Board of Directors there exist unusual circumstances where it would be impracticable or unfair towards the shareholders to continue dealing with shares of any Sub-Fund or any other circumstance where a failure to do so might result in the shareholders of the Company, a Sub-Fund or a Class of Shares incurring any liability to taxation or suffering other pecuniary disadvantages or other detriment which the shareholders of the Company, a Sub-Fund or a Class of Shares might not otherwise have suffered;
- f) in the event of the publication (i) of the convening notice to a general meeting of shareholders at which a resolution to wind up the Company or a Sub-Fund is to be proposed, or of the decision of the Board of Directors to wind up one or more Sub-Funds, or (ii) to the extent that such a suspension is justified for the protection of the shareholders, of the notice of the general meeting of shareholders at which the merger of the Company or a Sub-Fund is to be proposed, or of the decision of the Board of Directors to merge one or more Sub-Funds;
- g) in the case of the suspension of the calculation of the net asset value of one or several funds in which a Sub-Fund has invested a substantial portion of assets.

Notice of any suspension will be published by the Company, if it considers it appropriate, and notified to shareholders that have made a request for subscription, redemption or conversion of shares in respect of which calculation of the Net Asset Value has been suspended.

During any suspension of the calculation of the Net Asset Value, requests for subscription, redemption or conversion of shares may be revoked provided such requests reach the Company prior to the lifting of the suspension period. Failing revocation, the issue, redemption or conversion price shall be based on the Net Asset Value calculated as of the first Valuation Day after the end of the suspension period.

Any suspension relating to a Sub-Fund shall have no effect on the calculation of the Net Asset Value, and, if applicable, the issue, redemption or conversion price of the shares of any other Sub-Fund.

XVI. GENERAL MEETINGS OF SHAREHOLDERS AND FINANCIAL YEAR

The annual general shareholders' meeting is held at the registered office of the

Company or any other location in Luxembourg specified in the convening notice, on the third Tuesday of June or, if that day is not a Business Day, on the next following Business Day.

If permitted by and under the conditions set forth in Luxembourg laws and regulations, the annual general meeting of shareholders may be held at a date, time or place other than those set forth in the preceding paragraph, that date, time or place to be decided by the Board of Directors.

Shareholders will meet upon call by the Board of Directors or upon the written request of shareholders representing at least one tenth of the share capital of the Company, pursuant to a notice setting forth the agenda, sent in accordance with Luxembourg laws.

Under the conditions set forth in Luxembourg laws and regulations, the notice of any general meeting of shareholders may provide that the quorum and the majority at this general meeting shall be determined according to the shares issued and outstanding at a certain date and time preceding the general meeting (the "Record Date"), whereas the right of a shareholder to attend a general meeting of shareholders and to exercise the voting rights attaching to his/its/her shares shall be determined by reference to the shares held by this shareholder as at the Record Date.

The financial year of the Company starts on January 1 and ends on December 31 of the same year.

The first financial year shall end on 31 December 2016.

XVII. PERIODICAL REPORTS AND PUBLICATIONS

The Company publishes an audited annual report and an unaudited semi-annual report. These reports include financial information relating to the various Sub-Funds of the Company as well as the composition and progression of the price of their assets. Each report also contains a consolidated statement of the assets of each Sub-Fund expressed in Euros. Annual reports are published within four months following the close of the financial year. Semi-annual reports are published within two months of the end of the semester. The first semi-annual report will be published as of 30 June 2016. The first audited annual report will be published as of 31 December 2016.

All these reports will be made available to shareholders at the registered office of the Company, by the Administrative Agent and by any appointed distributor or intermediary.

The Net Asset Value per share of each Sub-Fund as well as the issue and redemption prices will be made public at the registered office of the Administrative Agent and of

the Company.

The following documents may be consulted free of charge on each Business Day during normal business hours at the Company's registered office:

- The Articles;
- The Prospectus;
- The Key Investor Information Documents;
- The Depositary Bank agreement;
- The Central Administration Agreement;
- The Investment Management Agreements;
- The Management Company Agreement; and
- Annual and semi-annual reports.

A copy of the Articles, the Prospectus and copies of the annual and semi-annual reports of the Company may be requested free of charge from the registered office of the Company.

In addition, the Prospectus and the Key Investor Information Documents, as appropriate, are available under www.woodman.ch or <http://www.credit-suisse.com/Multiconcept>.

XVIII. DISTRIBUTION POLICY

The Board of Directors may decide to issue capitalisation or distribution shares.

In principle, distribution shares give their owners the right to receive distributions. Following each distribution, the proportion of the net assets to be attributed to such distribution shares shall be reduced by an amount equal to the amount of the distribution, thus resulting in a reduction of the net assets attributable to such distribution shares. In principle, capitalisation shares will not make distributions.

Distributions may be composed of income (e.g. dividend income and interest income), realised and/or unrealised gains on investment, and capital.

To the extent that distributions are paid out of sources other than income, such payment of distributions amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that share class. Shareholders may receive a higher distribution than they would have otherwise received in a Share class where fees and expenses are deducted from the distributable income.

Investors should note that the charging of fees and expenses to sources other than income as described above may constrain future capital growth for such Shares together with the likelihood that the value of future returns would be diminished.

The payment of fees and expenses out of sources other than income may result in distributions paid effectively out of the capital of such Shares. In these circumstances, distributions made in respect of such shares should be understood by investors as a form of capital reimbursement.

Investors in certain countries may be subject to higher tax rates on distributions than on capital gains from the sale of Company shares. Some investors may therefore prefer to subscribe to capitalising rather than distributing share classes. Investors are advised to consult their tax adviser on this matter.

At the annual general meeting, the shareholders of each Class of Shares shall decide, upon the proposal of the Board of Directors and subject to the limits imposed by this Prospectus and by law, the amount of distributions to be disbursed, if any, for such Class of Shares.

No distribution shall reduce the share capital of the Company to an amount less than the minimum provided by the 2010 Law.

The Board of Directors may decide to pay interim distributions.

Distributions shall be paid in the Reference Currency of the relevant Class of Shares.

In the event that a dividend is declared and is not claimed by the beneficiary within five years from the date of declaration, it may no longer be claimed and shall be returned to the relevant Sub-Fund for the benefit of the relevant Class of Shares. No interest will be payable on any dividend declared by the Company and held at the disposal of the beneficiary.

XIX. TAX TREATMENT OF THE COMPANY AND ITS SHAREHOLDERS

The following information is based on the laws, regulations, decisions and practice currently in force in Luxembourg and is subject to changes therein, possibly with retrospective effect. This summary does not purport to be a comprehensive description of all Luxembourg tax laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of shares and is not intended as tax advice to any particular investor or potential Investor. Prospective Investors should consult their own professional advisers as to the implications of buying, holding or disposing of shares and to the provisions of the laws of the jurisdiction in which they are subject to tax. This summary does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

1. Tax treatment of the Company

The Company is not subject to taxation in Luxembourg on its income, profits or gains.

The Company is not subject to net wealth tax in Luxembourg.

No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the shares of the Company.

The Sub-Funds are, nevertheless, in principle, subject to a subscription tax (*taxe d'abonnement*) levied at the rate of 0.05% *per annum* based on their net asset value at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax rate of 0.01% *per annum* is however applicable to:

- any Sub-Fund whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both;
- any Sub-Fund or Class provided that their shares are only held by one or more Institutional Investor(s).

A subscription tax exemption applies to:

- The portion of any Sub-Fund's assets (*prorata*) invested in a Luxembourg investment fund or any of its sub-fund to the extent it is subject to the subscription tax;
- Any Sub-Fund (i) whose securities are only held by Institutional Investor(s), and (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) whose weighted residual portfolio maturity does not exceed 90 days, and (iv) that have obtained the highest possible rating from a recognised rating agency. If several Classes are in issue in the relevant Sub-Fund meeting (ii) to (iv) above, only those Classes meeting (i) above will benefit from this exemption;
- Any Sub-Fund, whose main objective is the investment in microfinance institutions; and
- Any Sub-Fund, (i) whose securities are listed or traded on a stock exchange and (ii) whose exclusive object is to replicate the performance of one or more indices. If several Classes are in issue in the relevant Sub-Fund meeting (ii) above, only those Classes meeting (i) above will benefit from this exemption.

To the extent that the Company would only be held by pension funds and assimilated vehicles, the Company as a whole would benefit from the subscription tax exemption.

Withholding tax

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the

countries of origin. The Company may benefit from double tax treaties entered into by Luxembourg, which may provide for exemption from withholding tax or reduction of withholding tax rate.

Distributions made by the Company as well as liquidation proceeds and capital gains derived therefrom are not subject to withholding tax in Luxembourg.

2. Tax treatment of shareholders

Luxembourg resident individuals

Capital gains realised on the sale of the shares by Luxembourg resident individuals Investors who hold the shares in their personal portfolios (and not as business assets) are generally not subject to Luxembourg income tax except if:

- (i) the shares are sold within 6 months from their subscription or purchase; or
- (ii) if the shares held in the private portfolio constitute a substantial shareholding. A shareholding is considered as substantial when the seller holds or has held, alone or with his/her spouse and underage children, either directly or indirectly at any time during the five years preceding the date of the disposal, of more than 10% of the share capital of the Company.

Distributions received from the Company will be subject to Luxembourg personal income tax. Luxembourg personal income tax is levied following a progressive income tax scale, and increased by the solidarity surcharge (*contribution au fonds pour l'emploi*).

Luxembourg resident corporate

Luxembourg resident corporate Investors will be subject to corporate taxation at the applicable rates on capital gains realised upon disposal of shares and on the distribution received from the Company.

Luxembourg resident corporate Investors who benefit from a special tax regime, such as, for example, (i) an undertaking for collective investment subject to the 2010 Law, (ii) specialized investment funds subject to the amended law of 13 February 2007 on specialised investment funds, or (ii) a reserved alternative investment funds subject to the law of 23 July 2016 on reserved alternative investment funds (to the extent they have not opted to be subject to general corporation taxes), or (iv) a family wealth management company subject to the amended law of 11 May 2007 related to family wealth management companies, are exempt from income tax in Luxembourg, but are instead subject to an annual subscription tax (*taxe d'abonnement*) and thus income derived from the shares, as well as gains realized thereon, are not subject to Luxembourg income taxes.

The shares shall be part of the taxable net wealth of the Luxembourg resident corporate Investors except if the holder of the shares is (i) a UCI subject to the 2010

Law, (ii) a vehicle governed by the amended law of 22 March 2004 on securitization, (iii) an investment company in risk capital subject to the amended law of 15 June 2004 on the investment company in risk capital, (iv) a specialized investment fund subject to the amended law of 13 February 2007 on specialised investment funds or (v) a reserved alternative investment fund subject to the law of 23 July 2016 on reserved alternative investment funds, or (vi) a family wealth management company subject to the amended law of 11 May 2007 related to family wealth management companies. The taxable net wealth is subject to tax on a yearly basis at the rate of 0.5%. A reduced tax rate of 0.05% is due for the portion of the net wealth exceeding EUR 500 million.

Non-Luxembourg residents

Non-resident individuals or collective entities who do not have a permanent establishment in Luxembourg to which the shares are attributable, are not subject to Luxembourg taxation on capital gains realized upon disposal of the shares nor on the distribution received from the Company and the shares will not be subject to net wealth tax.

Automatic Exchange of information

The Organisation for Economic Co-operation and Development ("OECD") has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "Euro-CRS Directive") was adopted in order to implement the CRS among the Member States.

The Euro-CRS Directive was implemented into Luxembourg law by the law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation ("CRS Law").

The CRS Law requires Luxembourg financial institutions to identify financial assets holders and establish if they are fiscally resident in countries with which Luxembourg has a tax information sharing agreement.

Accordingly, the Company may require its investors to provide information in relation to the identity and fiscal residence of financial account holders (including certain entities and their controlling persons) in order to ascertain their CRS status. Responding to CRS-related questions is mandatory. The personal data obtained will be used for the purpose of the CRS Law or such other purposes indicated by the Company in the data protection section of the Prospectus in compliance with Luxembourg data protection law. Information regarding an Investor and his/her/its account will be reported to the Luxembourg tax authorities (*Administration des Contributions Directes*), which will thereafter automatically transfer this information to the competent foreign tax authorities on a yearly basis, if such an account is

deemed a CRS reportable account under the CRS Law.

The Company reserves the right to refuse any application for shares if the information, whether provided or not, does not satisfy the requirements under the CRS Law.

Under the CRS Law, the first exchange of information will be applied by 30 September 2017 for information related to the calendar year 2016. Under the Euro-CRS Directive, the first AEOI must be applied by 30 September 2017 to the local tax authorities of the Member States for the data relating to the calendar year 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis.

Investors should consult their professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

3. United States ("US") Tax Withholding and Reporting under the Foreign Account Tax Compliance Act ("FATCA")

The Foreign Account Tax Compliance Act ("FATCA"), a portion of the 2010 Hiring Incentives to Restore Employment Act, became law in the United States in 2010. It requires financial institutions outside the US ("foreign financial institutions" or "FFIs") to pass information about "Financial Accounts" held by "Specified US Persons", directly or indirectly, to the US tax authorities, the Internal Revenue Service ("IRS") on an annual basis. A 30% withholding tax is imposed on certain US source income of any FFI that fails to comply with this requirement. On 28 March 2014, the Grand-Duchy of Luxembourg entered into a Model 1 Intergovernmental Agreement ("IGA") with the United States of America and a memorandum of understanding in respect thereof. The Company would hence have to comply with this Luxembourg IGA as implemented into Luxembourg law by the Law of 24 July 2015 relating to FATCA (the "FATCA Law") in order to comply with the provisions of FATCA rather than directly complying with the US Treasury Regulations implementing FATCA. Under the FATCA Law and the Luxembourg IGA, the Company may be required to collect information aiming to identify its direct and indirect shareholders that are Specified US Persons for FATCA purposes ("FATCA reportable accounts"). Any such information on FATCA reportable accounts provided to the Company will be shared with the Luxembourg tax authorities which will exchange that information on an automatic basis with the Government of the United States of America pursuant to Article 28 of the Convention between the Government of the United States of America and the Government of the Grand-Duchy of Luxembourg for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes in Income and Capital, entered into in Luxembourg on 3 April 1996. The Company intends to comply with the

provisions of the FATCA Law and the Luxembourg IGA to be deemed compliant with FATCA and will thus not be subject to the 30% withholding tax with respect to its share of any such payments attributable to actual and deemed U.S. investments of the Company. The Company will continually assess the extent of the requirements that FATCA and notably the FATCA Law place upon it.

To ensure the Company's compliance with FATCA, the FATCA Law and the Luxembourg IGA in accordance with the foregoing, the Management Company, in its capacity as the Company's Management Company, may:

- a) request information or documentation, including W-8 tax forms, a Global Intermediary Identification Number, if applicable, or any other valid evidence of a shareholder's FATCA registration with the IRS or a corresponding exemption, in order to ascertain that shareholder's FATCA status;
- b) report information concerning a shareholder and his/her/its account holding in the Company to the Luxembourg tax authorities if such an account is deemed a FATCA reportable account under the FATCA Law and the Luxembourg IGA;
- c) report information to the Luxembourg tax authorities (*Administration des Contributions Directes*) concerning payments to Investors with FATCA status of a non-participating foreign financial institution;
- d) deduct applicable US withholding taxes from certain payments made to a shareholder by or on behalf of the Company in accordance with FATCA, the FATCA Law and the Luxembourg IGA; and
- e) divulge any such personal information to any immediate payor of certain U.S. source income as may be required for withholding and reporting to occur with respect to the payment of such income.

The Company reserves the right to refuse any application for shares if the information provided by a potential investor does not satisfy the requirements under FATCA, the FATCA Law and the IGA.

XX. CHARGES AND EXPENSES

The Company will pay all the expenses to be borne by it, including without limitation, expenses relating to the incorporation and subsequent amendment of the Articles, commissions payable to the Management Company, the Investment Managers and/or the Investment Adviser (if any) (as provided in the Prospectus), the Depositary Bank, the Administrative Agent and other agents of the Company, to the members of the Board of Directors and to representatives in those places where the Company is registered, expenses relating to legal advice and auditing of the Company's accounts, expenses associated with fund structuring, regulatory, risk, reporting and fund governance support payable by the Company, expenses in connection with the preparation, advertising, printing and publication of marketing documents, filing

or registration expenses, all taxes and duties levied by governmental authorities and stock exchanges, expenses relating to the publication of issue, redemption and conversion prices, all other operating expenses, including finance, banking or brokerage fees incurred on the purchase or sale of assets or otherwise, and all other administrative expenses. In addition, directors may obtain reimbursement of travel, hotel and other expenses incurred in connection with their attendance at Board of Directors' meetings or general shareholders' meetings of the Company.

Expenses relating to the creation of a new Sub-Fund will be amortised over a period of no more than five years on the assets of this Sub-Fund.

Credit Suisse Fund Services (Luxembourg) S.A. and Credit Suisse (Luxembourg) S.A. will be paid a remuneration for their depositary bank respectively central administration services as disclosed in the relevant Appendix. The depositary bank and central administration commissions are payable in arrears and may vary from one Sub-Fund to another.

The fees payable to the Investment Managers and/or Investment Adviser (if any) are disclosed in the Appendix for each Sub-Fund.

XXI. DISSOLUTION OF THE COMPANY

The Company may be dissolved at any time by decision of the general meeting of shareholders deciding with the same quorum and majority requirements as for the amendment of the Articles.

The question of the dissolution of the Company must also be submitted to the general meeting of shareholders if the share capital falls below two-thirds of the minimum share capital required by the 2010 Law; in this case, the general meeting shall deliberate with no quorum requirement and shall decide by a simple majority of the votes cast.

The question of the dissolution of the Company must also be submitted to the general meeting of shareholders if the share capital falls below one quarter of the minimum share capital required by the 2010 Law; in this case, the general meeting shall deliberate with no quorum requirement and the dissolution may be resolved by shareholders holding a quarter of the shares at the meeting.

Such general meeting of shareholders shall be convened so that it is held within 40 days from the ascertainment that the net assets of the Company have fallen below two-thirds or one quarter of the minimum share capital, as the case may be.

XXII. LIQUIDATION AND MERGER OF SUB-FUNDS

1. Liquidation of a Sub-Fund

The Board of Directors may decide to close one or more Sub-Funds in the interests of the shareholders, if, in the opinion of the Board of Directors, significant changes in the political or economic situation render this decision necessary or if for any reason the value of the net assets of one or more Sub-Funds falls below an amount considered by the Board of Directors to be the minimum threshold for the Sub-Fund to be managed properly.

The Board of Directors may also decide to convene a general shareholders' meeting for a Sub-Fund for the purpose of deciding its dissolution. This general meeting will deliberate without any quorum requirement and the decision to dissolve the Sub-Fund will be taken by a majority of the votes cast.

In the event of the dissolution of a Sub-Fund or the Company, the liquidation will be carried out pursuant to the provisions of the 2010 Law, governing undertakings for collective investment, which sets out the procedures to enable shareholders to benefit from liquidation proceeds and in this context provides for the depositing of any amount that could not be distributed to shareholders when the liquidation is complete with the *Caisse de Consignation* in Luxembourg.

2. Merger with another Sub-Fund or with another undertaking for collective investment

The Board of Directors may decide to merge any Sub-Fund with another undertaking for collective investment qualifying as a UCITS (whether subject to Luxembourg law or not) or with another Sub-Fund of the Company.

Any such merger shall be decided by the Board of Directors unless the Board of Directors decides to submit the decision for a merger to a meeting of shareholders of the Sub-Fund concerned. No quorum is required for such a meeting and decisions are taken by a simple majority of the votes cast. In case of a merger of a Sub-Fund where, as a result, the Company ceases to exist, the merger shall be decided by a meeting of shareholders resolving in accordance with the quorum and majority requirements for changing the Articles.

Any such merger will be undertaken in accordance with the 2010 Law which provides, inter alia, that shareholders will be informed of such mergers and have the possibility to redeem their shares free of charge during 30 days prior to the last day on which such redemptions will be accepted.

3. Consolidation / Split of Classes of Shares

The Board of Directors may also decide to split or consolidate different Classes of Shares within a Sub-Fund. Such decision will be published in accordance with applicable laws and regulations.

4. Split of Sub-Funds

The Board of Directors may decide the reorganisation of a Sub-Fund, by means of a division into two or more Sub-Funds. Such decision will be published in accordance with applicable laws and regulations. Such publication will normally be made one month before the date on which the reorganisation becomes effective in order to enable the shareholders to request redemption of their shares, free of charge, before the operation involving division into two or more Sub-Funds becomes effective.

APPENDIX: THE SUB-FUNDS

I. WOODMAN SICAV- WOODMAN CORE FUND

1. Reference currency

The reference currency of the Sub-Fund is the US Dollar (USD).

2. Objectives of the Compartment

The objective of the Compartment is to provide capital preservation, whilst maintaining prospects for capital growth by adopting a cautious absolute-return investment approach.

3. Investment policy

The Sub-Fund will invest in a diversified portfolio consisting of a range of asset classes including fixed income, equity and alternative related asset classes.

Investments will be made without any specific country, currency or sector restriction. Allocation to the various asset classes will be determined by the Investment Manager at its sole discretion and based on its proprietary analysis of markets and market trends.

Under normal market circumstances and at the date of this Prospectus, the Investment Manager expects that the net assets of the Sub-Fund will be allocated to the various asset classes in the following proportions, it being understood that, based on its proprietary analysis of markets and market trends, the Investment Manager may change such proportions without prior notice:

- Fixed Income related asset class: between 50 - 80%
- Equity related asset class: between 15 – 35%
- Alternative related asset class: between 0 – 10%

The current allocation can be obtained free of charge from the registered office of the Investment Manager.

Fixed income related asset class

The Sub-Fund may invest up to 100% of its net assets directly and indirectly (such as via Other UCIs and/or UCITS, derivatives and structured products) in debt and money market related eligible assets and eligible indices (i.e. that comply with article 9 of Grand Ducal Regulation of 8 February 2008 and CSSF circular 14/592 relating to ESMA guidelines on ETFs and other UCITS issues), such as, but not limited to Eurozone, international and emerging country money market instruments, treasury bills, sovereign and/or corporate fixed and/or floating rate bonds (including covered bonds), convertible bonds, contingent convertible fixed income instruments or inflation-linked bonds of issuers worldwide of any credit quality and denominated in

any convertible currency as well as time deposits, interest rate or credit default swap ("CDS") instruments.

The Sub-Fund may invest up to 50 % of its net assets in sub-investment grade instruments (excluding instruments rated as distressed or lower). The Sub-Fund may invest up to 5% of its net assets in fixed income instruments rated as distressed or lower.

Equity related asset class

The Sub-Fund may invest up to 50% of its net assets directly or indirectly (such as via Other UCIs and/or UCITS, derivatives and structured products in equities and country, regional, sectorial or style equity indices) in equity and equity related (such as American depositary receipts ("ADR"s) or global depositary receipts ("GDRs")) instruments.

Currency related asset class

The Compartment may on an ancillary basis invest in currency related assets (taking long or short positions in foreign currencies through foreign currency forwards, futures, options or swaps) in order to generate exposure to a given currency or for hedging purposes.

Alternative related asset class

The Sub-Fund may invest up to 20% of its net assets in "alternative" investments (such as commodities, precious metals, real estate, infrastructure, private equity or hedge fund strategies).

The exposure to so-called "alternative" investments will be made through investment in any type of instrument authorised by the Law and the Grand Ducal Regulation of 8 February 2008 and compliant with CSSF circular 14/592 such as, but not limited to, transferable securities, units or shares of UCIs (and/or UCITS) or financial derivative instruments.

Indirect exposures through derivatives and structured products

Within the limits of the investment restrictions disclosed in the Prospectus, the Sub-Fund may use derivative and structured products in order to generate long or short exposures to the above asset classes.

The structured products that may be used include, but are not limited to, notes, certificates or any other eligible transferable security whose returns are linked, *inter alia*, to an index that complies with the provisions of Article 9 of the Grand Ducal regulation of 8 February 2008 (including indices on commodities, precious metals, volatility, etc.), currencies, interest rates, transferable securities, a basket of transferable securities, or a UCI, in compliance with the 2010 Law and the Grand Ducal regulation of 8 February 2008 and CSSF Circular 14/592.

The Sub-Fund may use any type of financial derivative instrument traded on a Regulated Market and/or over-the-counter (OTC), provided that they are entered into with leading financial institutions specialised in this type of transaction. In particular, the Sub-Fund may, *inter alia* but not exclusively, invest in warrants, futures, options, swaps (such as total return swaps, contracts for difference, credit default swaps) and forward contracts on currencies (including non-delivery forwards), interest rates, transferable securities, a basket of transferable securities, indices (such as on commodities, precious metals, volatility, etc.) or UCIs.

Derivatives (including but not limited to futures, options, forwards, credit default swaps and total returns swaps) and structured instruments may be used to implement the investment strategy within the above asset classes or for hedging purposes.

Structured products and derivatives may for example be used to implement the following strategies:

- Selling or purchasing index or single bond CDS in order to generate a long exposure to that index or bond credit risk or for hedging purposes
- Purchasing or selling bond index or interest rate futures or options and Interest Rate Swaps in order to generate a exposure to that index or bond and its specific duration segment or for hedging purposes
- Purchasing credit linked notes to gain exposure to a specific bond or basket of bonds
- Investing in equity index or single equity futures, options or total return swaps that generate an exposure to the underlying equity or equity index or for hedging purposes
- Purchasing equity linked notes to gain exposure to a specific stock or basket of stocks
- Investing in non-leveraged (Delta 1) structured notes qualifying as transferable securities (also referred to as exchange traded commodities) that generate an exposure to a specific commodity (crude oil, grain, copper...) or precious metal (gold, silver, palladium...) or futures, options, combined options or total return swaps on such structured notes
- Investing in futures, options, combined options or Total Return Swaps on commodity, precious metal, private equity, hedge fund, real estate or infrastructure financial indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF circular 14/592 relating to ESMA

guidelines on ETFs and other UCITS issues, that generate exposure to such index

- Investing in listed closed ended investment funds that are themselves invested in real estate, infrastructure, private equity or hedge fund strategies

Additional Investment Restrictions

In response to exceptional circumstances, the Sub-Fund may invest on a temporary basis up to 100% of its net assets in liquidities (including bonds or treasury bills issued by a government of any OECD country or supra national organisations, money market instruments and cash) if the Investment Manager believes that this is in the best interest of shareholders.

For the avoidance of doubt, the Sub-Fund will not invest (i) more than 20% of its net assets in contingent convertible fixed income securities, (ii) more than 10% of its net assets directly in China A Shares nor (iii) more than 20% of its net assets in ABS/MBS. Direct investments in China A Shares will currently be made via Stock Connect, although the Board reserves the right to, subject to regulatory approval, to use other investment channels. In relation to contingent convertible fixed income instruments, investors should consult the specific risk factors relating thereto as disclosed in the "Risk Factor" section of the main part of this Prospectus.

The Sub-Fund may be leveraged up to 100% through the use of derivatives linked to equity, currencies, interest rates or credit as follows:

Equity

The Sub-Fund may be leveraged up to 50% through short equity positions via derivatives.

Currency

The Sub-Fund may use currency derivatives such as forwards, futures options or swaps for hedging purposes, to reallocate currency exposures as well as to take currency bets. In relation to the latter, the Sub-Fund may generate up to 30% leverage.

Debt (interest rate and credit)

The Sub-Fund may use interest rate and bond futures, interest rates swaps and credit default swaps for duration and credit risk management. The use of such derivatives may result in up to 100% leverage.

4. Investment Manager of the Sub-Fund

The Management Company has appointed Woodman Asset Management AG, Poststrasse 26, CH-6300 Zug, Switzerland as Investment Manager of the Sub-Fund. For this purpose, an agreement was signed which may be terminated at any time by either party subject to a three months' notice.

5. Valuation Day

The net asset value of every share class in the Sub-Fund is calculated as at each Business Day.

6. Deadline for receipt of subscription, redemption and conversion orders

16:00 (Luxembourg time) one Business Day before the relevant Valuation Day.

7. Value date for receipt of the subscription price and payment of the redemption price for shares

The subscription price for each share must reach the Depositary Bank two Business Days following the applicable Valuation Day.

The redemption price for each share will, in principle, be paid to the shareholder within three (3) Business Days from the applicable Valuation Day.

8. Classes of Shares

The Sub-Fund issues Class R and I capitalisation ("cap.") and distribution ("dist.") shares in such currencies as specified below:

R cap. USD	I cap. USD
R H cap. EUR	I H cap. EUR
R H cap. CHF	I H cap CHF

All share classes denominated in a currency other than the reference currency of the Sub-Fund will be hedged ("H") against this reference currency. Investors should consult Section VIII "Hedged Classes" of this Prospectus.

Class R shares are available to all investors. Class R shares are not subject to any minimum initial or subsequent subscription amount nor to a minimum holding amount.

Class I shares are reserved to Institutional Investors. Class I shares shall be subject to a minimum initial subscription and holding amount of 1'000'000 USD (or equivalent in another currency). There is no minimum subsequent subscription amount.

9. Distribution policy

It is anticipated that the capitalisation shares issued in this Sub-Fund will not distribute any dividends.

10. Subscription, redemption and conversion fees

A subscription fee of up to 5% of the Net Asset Value per share subscribed may be charged in relation to Class R and I shares for the benefit of the financial intermediaries and other persons involved in the distribution of shares.

No redemption or conversion fee shall be charged for Class R or I shares.

11. Management Fee, Investment Management Fee, Central Administration Fee and Depositary Bank Fee:

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 1.25% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.70% p.a. (plus any applicable taxes, if any) for Shares of Classes I, subject to a minimum fee in the amount of USD 22'000 (each plus any applicable taxes, if any).

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to (i) up to 1.2% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.65% p.a. (plus any applicable taxes, if any) for Shares of Class I.

In addition to such management fee, the Central Administrator is entitled to receive a central administration fee paid out of the assets of the Sub Fund for its central administration services up to 0.06 %p.a. calculated monthly on the basis of the average Net Asset Value of the respective Class (each plus any applicable taxes, if any), subject to a minimum fee in the amount of USD 30'000 (each plus any applicable taxes, if any).

The Depositary Bank is entitled to receive an annual depositary bank fee paid out of the assets of the Sub Fund for its depositary bank services which is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 0.05 % p.a. subject to a minimum fee in the amount of USD 22'000 p.a. (each plus any applicable taxes, if any) plus (ii) a variable amount for transactions depending on the actual number of transactions (plus any applicable taxes, if any) plus (iii) a fixed amount for the services rendered for Depositary Bank monitoring & control of USD 11'000 p.a. (plus any applicable taxes, if any).

The actual fees that are charged shall be disclosed in the respective annual or semi-annual report.

12. Risk Measurement Approach

The global exposure of the Sub-Fund is calculated using the Commitment Approach.

13. SFT Disclosures

As of the date of this Prospectus, it is not intended that the Sub-Fund invests in SFT Transactions except in total return swaps (for more details please consult Section VI, point 9 of the main part of the Prospectus) as defined in the SFT Regulation.

The expected proportion of net assets of the Sub-Fund which will be subject to total return swaps is 10%.

II. WOODMAN SICAV- WOODMAN GLOBAL CURRENCIES

1. Reference currency

The reference currency of the Sub-Fund is the US Dollar (USD).

2. Objectives of the Compartment

The investment objective of the Sub-Fund is to achieve long-term capital growth through the use of international currency fluctuations.

No assurance can be given that the goals of the investment objective will be achieved.

3. Investment policy

The investment objective of the Sub-Fund is to achieve absolute returns through an active management of foreign exchange strategies which will be the main driver of the performance of the Sub-Fund.

The financial instruments that will be used to build the strategies will be spot positions, futures, forwards, non-deliverable forwards ("NDF") and options on currencies. The Sub-Fund may take short positions in various currencies through the above mentioned currency instruments.

The assets of the Sub-Fund not invested in currency based instruments will be held as cash or deposits or will be invested in investment grade bonds, money market instruments or units or shares of bond or money market UCITS/Other UCIs. The Sub-Fund will not hold any convertible bonds.

If the Investment Manager deems it necessary for defensive purposes and on a temporary basis, the Sub-Fund may invest 100% of its net assets in short term bonds, money market instruments, deposits, units or shares of money market UCITS/Other UCIs or in cash.

4. Investment Manager of the Sub-Fund

The Management Company has appointed Woodman Asset Management AG, Poststrasse 26, CH-6300 Zug, Switzerland as Investment Manager of the Sub-Fund. For this purpose, an agreement was signed which may be terminated at any time by either party subject to a three months' notice.

5. Valuation Day

The net asset value of every share class in the Sub-Fund is calculated as at each Business Day.

6. Deadline for receipt of subscription, redemption and conversion orders

16:00 (Luxembourg time) one Business Day before the relevant Valuation Day.

7. Value date for receipt of the subscription price and payment of the redemption price for shares

The subscription price for each share must reach the Depositary Bank two Business Days following the applicable Valuation Day.

The redemption price for each share will, in principle, be paid to the shareholder within three (3) Business Days from the applicable Valuation Day.

8. Classes of Shares

The Sub-Fund issues Class R and I capitalisation ("cap.") and distribution ("dist.") shares in such currencies as specified below:

R cap. USD	I cap. USD
R H cap. EUR	I H cap. EUR
R H cap. CHF	I H cap. CHF

All share classes denominated in a currency other than the reference currency of the Sub-Fund will be hedged ("H") against this reference currency. Investors should consult Section VIII "Hedged Classes" of this Prospectus.

Class R shares are available to all investors. Class R shares are not subject to any minimum initial or subsequent subscription amount nor to a minimum holding amount.

Class I shares are reserved to Institutional Investors. Class I shares shall be subject to a minimum initial subscription and holding amount of 1'000'000 USD (or equivalent in another currency). There is no minimum subsequent subscription amount.

9. Distribution policy

It is anticipated that the capitalisation shares issued in this Sub-Fund will not distribute any dividends.

10. Subscription, redemption and conversion fees

A subscription fee of up to 5% of the Net Asset Value per share subscribed may be charged in relation to Class R and I shares for the benefit of the financial intermediaries and other persons involved in the distribution of shares.

No redemption or conversion fee shall be charged for Class R or I shares.

11. Management Fee, Investment Management Fee, Central Administration Fee and Depositary Bank Fee

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 1.50% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.75% p.a. (plus any applicable taxes, if any) for Shares of Classes I, subject to a minimum fee in the amount of USD 33'000 (each plus any applicable taxes, if any).

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to (i) up to 1.45% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.70% p.a. (plus any applicable taxes, if any) for Shares of Class I.

In addition to such management fee, the Central Administrator is entitled to receive a central administration fee paid out of the assets of the Sub Fund for its central administration services up to 0.06 % p.a. calculated monthly on the basis of the average Net Asset Value of the respective Class (each plus any applicable taxes, if any), subject to a minimum fee in the amount of USD 30'000 (each plus any applicable taxes, if any).

The Depositary Bank is entitled to receive an annual depositary bank fee paid out of the assets of the Sub Fund for its depositary bank services which is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 0.05 % p.a. subject to a minimum fee in the amount of USD 22'000 p.a. (each plus any applicable taxes, if any) plus (ii) a variable amount for transactions depending on the actual number of transactions (plus any applicable taxes, if any) plus (iii) a fixed amount for the services rendered for Depositary Bank monitoring & control of USD 11'000 p.a. (plus any applicable taxes, if any).

The actual fees that are charged shall be disclosed in the respective annual or semi-annual report.

12. Performance Fee

The Fund shall also pay to the Investment Manager a performance fee equal to 15%

of any increase in the Fund's Net Asset Value above the higher of the High Watermark and the Accumulated Hurdle Amount (as defined in (c) hereunder). Such Performance Fee will accrue daily and be payable quarterly in arrears.

The Performance Fee is calculated as the product of:

- (i) the number of shares deemed in issue
- (ii) 15%
- (iii) the positive difference (if any) between (a) and the higher of (b) and (c)

Where

- (a) equals the Fund's Net Asset Value (before the deduction of the Performance Fee) divided by the number of shares deemed in issue
- (b) equals the highest previous result of dividing the Fund's Net Asset Value (after deduction of the relevant Performance Fee) by the number of shares deemed in issue at the end of a quarter; and
- (c) equals the initial launch price of \$100 compounded monthly by the USD 3 month LIBOR rate for the period from the date of launch to the relevant Valuation Day.

If shares are redeemed at a date other than the date of the payment of the Performance Fee, when a Performance Fee has been accrued, the portion of the Performance Fee attributable to redeemed shares is definitely accrued to the Investment Manager. It will be paid at the end of the closest performance calculation period.

13. Risk Measurement Approach

The global exposure of the Sub-Fund is measured and controlled using the absolute Value-at-Risk approach (the "VaR Approach").

The expected level of leverage of the Sub-Fund, under normal market conditions, calculated using the "Sum of the Notional" methodology, is expected to be 1000% although lower and higher levels are possible.

Investors should note that there is possibility of higher leverage levels in certain circumstances, e.g. where the Investment Manager may make more extensive use of financial derivative instruments for investment purposes (within the limits of the Sub-Fund's investment objective) and/or for hedging or efficient portfolio management purposes, or when market condition vary dramatically for instance in the case of extreme market movements, either to the upside or to the downside.

The expected level of leverage indicated above reflects the use of all derivative instruments within the portfolio of the Sub-Fund. An expected level of leverage does not necessarily represent an increase of risk in the Sub-Fund as some of the derivative

instruments used may even reduce the risk.

Shareholders should note that the "Sum of Notional" methodology does not make a distinction as to the intended use of a derivative e.g. being either hedging or investment purposes.

The "Sum of Notional" methodology typically results in a higher figure than the "Commitment" methodology predominantly due to the exclusion of any netting and/or hedging arrangements. The "Commitment" methodology takes into account the exposure of the portfolio to derivative instruments with the exclusion of derivative instruments which are used for reducing risk (i.e. derivative instruments used for interest rate and FX hedging). It is thus a calculation method which shows the "net" global exposure of a Sub-Fund to derivative instruments, taking into account the actual exposure of the Sub-Fund to such instruments.

Upon request of an investor, the Management Company will provide additional information relating to the quantitative limits that apply in the risk management of the Sub-Fund, to the methods chosen to this end and to the recent evolution of the risks and yields of the main categories of instruments.

14. SFT Disclosures

As of the date of this Prospectus, it is not intended that the Sub-Fund invests in SFT Transactions and in total return swaps as defined in the SFT Regulation.

III. WOODMAN SICAV – WOODMAN EUROPE DYNAMIC FUND

1. Reference currency

The reference currency of the Sub-Fund is the Euro (EUR).

2. Objectives of the Compartment

The objective of the Sub-Fund is to achieve medium to long term capital growth.

3. Investment Policy

The Sub-Fund will primarily invest, directly or indirectly (for example through derivatives, structured products or Other UCIs and/or UCITS) in equities and equity-type transferable securities (such as American depositary receipts ("ADR"s) or global depositary receipts ("GDRs") instruments) of small and medium-sized companies that have at the time of their purchase a market capitalisation which is below EUR 20 billion and either have their registered office in a Member State or in an EFTA member state (hereafter "Europe") or carry out the majority of their activities in Europe or generate the majority of their revenue from Europe or are listed on a European Regulated Market. These companies may include European emerging markets companies.

The Sub-Fund may invest up to 49 % of its net assets in other equity and equity-type related transferable securities worldwide which do not fulfil the above requirements.

The Sub-Fund may invest up to 49% in liquidities (including fixed income instruments or treasury bills issued by a government of any OECD country or supra national organisations, money market instruments and cash).

The portfolio may be concentrated in a single economic sector, a single currency, a single geographic region or a limited number of investments.

The Sub-Fund may use derivatives on eligible equity indices irrespective of the market capitalization of their constituents for the aim to hedge its equity exposure, which do not need to fulfil the hedging criteria.

Indirect exposures through derivatives and structured products

Within the limits of the investment restrictions disclosed in the Prospectus, the Sub-Fund may use derivative and structured products. Only derivative products linked to equity and currency instruments may be used for leverage purpose.

The structured products that may be used include, but are not limited to, notes, certificates or any other eligible transferable security whose returns are linked, inter alia, to an index that complies with the provisions of Article 9 of the Grand Ducal

regulation of 8 February 2008 (including indices on commodities, precious metals, volatility, etc.), currencies, interest rates, transferable securities, a basket of transferable securities, or a UCI, in compliance with the 2010 Law and the Grand Ducal regulation of 8 February 2008 and CSSF Circular 14/592.

The Sub-Fund may use any type of financial derivative instrument traded on a Regulated Market and/or over-the-counter (OTC), provided that they are entered into with leading financial institutions specialised in this type of transaction. In particular, the Sub-Fund may, *inter alia* but not exclusively, invest in warrants, futures, options, swaps (such as total return swaps, contracts for difference, credit default swaps) and forward contracts on currencies (including non-delivery forwards), interest rates, transferable securities, a basket of transferable securities, indices (such as on commodities, precious metals, volatility, etc.) or UCIs.

Derivatives (including but not limited to futures, options, forwards and credit default swaps) and structured instruments may be used to implement the investment strategy, for hedging purposes and for the efficient management of the portfolio.

Structured products and derivatives may for example be used to implement the following strategies:

- Investing in equity index or single equity futures, options or total return swaps that generate an exposure to the underlying equity or equity index or for hedging purposes
- Purchasing equity linked notes to gain exposure to a specific stock or basket of stocks

Additional Investment Restrictions

The Sub-Fund may invest up to 10% of its net assets in fixed income instruments. The Sub-Fund is explicitly allowed to invest in convertible bonds.

In response to exceptional circumstances, the Sub-Fund may invest on a temporary basis up to 100% of its net assets in liquidities (including bonds or treasury bills issued by a government of any OECD country or supra national organisations, money market instruments and cash) if the Investment Manager believes that this is in the best interest of shareholders.

The Sub-Fund may be leveraged up to 100% through the use of derivatives linked to equity and currencies as follows:

Equity

The Sub-Fund may be leveraged up to 100% through long and short equity positions via derivatives.

Currency

The Sub-Fund may use currency derivatives such as forwards, futures options or swaps for hedging purposes, to reallocate currency exposures as well as to take currency bets. In relation to the latter, the Sub-Fund may generate up to 50% leverage.

4. Investment Manager of the Sub-Fund

The Management Company has appointed Woodman Asset Management AG, Poststrasse 26, CH-6300 Zug, Switzerland as Investment Manager of the Sub-Fund. For this purpose, an agreement was signed which may be terminated at any time by either party subject to a three months' notice.

5. Valuation Day

The net asset value of every share class in the Sub-Fund is calculated as at each Business Day.

6. Deadline for receipt of subscription, redemption and conversion orders

16:00 (Luxembourg time) one Business Day before the relevant Valuation Day.

7. Value date for receipt of the subscription price and payment of the redemption price for shares

The subscription price for each share must reach the Depositary Bank two Business Days following the applicable Valuation Day.

The redemption price for each share will, in principle, be paid to the shareholder within three (3) Business Days from the applicable Valuation Day.

8. Classes of Shares

The Sub-Fund issues Class R and I capitalisation ("cap.") and distribution ("dist.") shares in such currencies as specified below:

R H cap. USD	I H cap. USD
R cap. EUR	I cap. EUR
R H cap. CHF	I H cap. CHF

All share classes denominated in a currency other than the reference currency of the Sub-Fund will be hedged ("H") against this reference currency. Investors should consult Section VIII "Hedged Classes" of this Prospectus.

Class R shares are available to all investors. Class R shares are not subject to any

minimum initial or subsequent subscription amount nor to a minimum holding amount.

Class I shares are reserved to Institutional Investors. Class I shares shall be subject to a minimum initial subscription and holding amount of 1'000'000 USD (or equivalent in another currency). There is no minimum subsequent subscription amount.

9. Distribution policy

It is anticipated that the capitalisation shares issued in this Sub-Fund will not distribute any dividends.

10. Subscription, redemption and conversion fees

A subscription fee of up to 5% of the Net Asset Value per share subscribed may be charged in relation to Class R and I shares for the benefit of the financial intermediaries and other persons involved in the distribution of shares.

No redemption or conversion fee shall be charged for Class R or I shares.

11. Management Fee, Investment Management Fee, Central Administration Fee and Depositary Bank Fee

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 1.55% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.85% p.a. (plus any applicable taxes, if any) for Shares of Classes I, subject to a minimum fee in the amount of USD 22,000 (each plus any applicable taxes, if any).

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to (i) up to 1.50% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.80% p.a. (plus any applicable taxes, if any) for Shares of Class I.

In addition to such management fee, the Central Administrator is entitled to receive a central administration fee paid out of the assets of the Sub Fund for its central administration services up to 0.06% p.a. calculated monthly on the basis of the average Net Asset Value of the respective Class (each plus any applicable taxes, if any), subject to a minimum fee in the amount of USD 30,000 (each plus any applicable taxes, if any).

The Depositary Bank is entitled to receive an annual depositary bank fee paid out of the assets of the Sub Fund for its depositary bank services which is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 0.05% p.a. subject to a minimum fee in the amount of USD 22,000

p.a. (each plus any applicable taxes, if any) plus (ii) a variable amount for transactions depending on the actual number of transactions (plus any applicable taxes, if any) plus (iii) a fixed amount for the services rendered for Depository Bank monitoring & control of USD 11,000 p.a. (plus any applicable taxes, if any).

The actual fees that are charged shall be disclosed in the respective annual or semi-annual report.

12. Risk Measurement Approach

The global exposure of the Sub-Fund is measured and controlled using the Commitment Approach.

13. SFT Disclosures

This Sub-Fund will not enter into SFT Transactions except total return swaps (for more details please consult section VI, point 9 of the main part of the Prospectus) as defined in the SFT Regulation.

The expected proportion of net assets of the Sub-Fund which will be subject to total return swaps is 10%.

IV. WOODMAN SICAV – GREEN ASH GLOBAL HIGH YIELD

1. Reference currency

The reference currency of the Sub-Fund is the US Dollar (USD).

2. Objectives of the Compartment

The investment objective of the Sub-Fund is to achieve income and capital appreciation by investing in bonds and other debt securities denominated in any currency issued by sub-investment grade issuers worldwide including emerging market countries.

3. Investment Policy

The process of security selection is driven both from the top down, using macro, sector and thematic inputs and bottom up, where the focus is on financial and operational trends and credit metrics. The process begins by searching through a large pool of securities and filtering the pool based on specific quantitative criteria including, country of origin, leverage, interest coverage or free cash flow etc. Once the number of securities is reduced further, the qualitative process begins and the individual credits are carefully examined. When a security is selected, a credit template is generated, containing key credit metrics and highlight the major financial and operational business trends.

The Sub-Fund will invest its assets in a diversified portfolio of predominantly high yield fixed income securities that are denominated in any currency and rated "sub-investment grade" (i.e. lower than Baa by Moody's or BBB by S&P or equivalent rating issued by Fitch or considered as such by the Investment Manager) at the time of investment. In addition, the Sub-Fund may also invest in fixed income securities that are rated as investment grade.

The Sub-Fund will invest directly and indirectly (such as via Other UCIs and/or UCITS, derivatives and structured products) in debt and money market related eligible assets, such as, but not limited to money market instruments, floating rate bonds, fixed rate bonds, convertible bonds, contingent convertible fixed income instruments or inflation-linked bonds of issuers worldwide and denominated in any convertible currency as well as time deposit, interest rate or credit default swap ("CDS") instruments.

The Sub-Fund may invest up to 10% of its assets in debt securities that are rated as "distressed" (i.e. CCC or lower by S&P or equivalent rating from Fitch or Moody's or considered as such by the Investment Manager) at the time of investment.

The Sub-Fund may invest up to 20% of its assets in debt securities that do not hold a

rating from any one of the following 3 ratings agencies: Moody's, S&P and Fitch. For the avoidance of doubt, in case of split ratings, the higher rating shall be considered at the time of investment.

With respect to emerging market countries, the Sub-Fund may invest up to 30% of its assets in fixed income securities issued by issuers domiciled in these countries.

The Sub-Fund may invest up to 20% of its net assets in contingent convertible fixed income instruments regardless of rating. Equities received as the result of conversions of such instruments or of convertible instruments will be sold taking into account the best interest of shareholders.

Further, in relation to contingent convertible fixed income instruments investors should consult the specific risk factors relating thereto as disclosed in the "Risk Factor" section of the main part of this Prospectus.

The Sub-Fund may indirectly invest in ABS/MBS (such as Other UCIs and/or UCITS) but such investments will not exceed more than 10% of the Sub-Fund's net assets.

The Sub-Fund may invest up to 10% of its net assets in UCITS and/or Other UCIs.

The Sub-Fund may hold up to 100% of its assets in cash and cash equivalents if the Investment Manager considers this to be in the best interests of the Shareholders.

The composition of the Sub-Fund will be determined by the Investment Manager at its sole discretion and is based on its proprietary analysis of markets and market trends.

The Investment Manager seeks to utilise its investment process which focuses on a combination of both top-down and bottom-up analysis and security selection.

Equity related assets

The Sub-Fund may in addition invest up to 10% of its net assets directly or indirectly (such as via Other UCIs and/or UCITS, derivatives and structured products in equities and country, regional, sectorial or style equity indices) in equity and equity related instruments (such as American depositary receipts ("ADR"s) or global depositary receipts ("GDRs") instruments). Equities held following the conversion of contingent convertible fixed income instruments or convertible bonds are not included in this limit.

Indirect exposures through derivatives and structured products

Within the limits of the investment restrictions disclosed in the Prospectus, the Sub-Fund may use derivative and structured products. Only derivative products linked to debt/credit and currency instruments may be used for leverage purpose.

The structured products that may be used include, but are not limited to, notes, certificates or any other eligible transferable security whose returns are linked, *inter alia*, to an index that complies with the provisions of Article 9 of the Grand Ducal regulation of 8 February 2008 (including indices on commodities, precious metals, volatility, etc.), currencies, interest rates, transferable securities, a basket of transferable securities, or a UCI, in compliance with the 2010 Law and the Grand Ducal regulation of 8 February 2008 and CSSF Circular 14/592.

The Sub-Fund may use any type of financial derivative instrument traded on a Regulated Market and/or over-the-counter ("OTC"), provided that they are entered into with leading financial institutions specialised in this type of transaction. In particular, the Sub-Fund may, *inter alia* but not exclusively, invest in warrants, futures, options, swaps (such as total return swaps, contracts for difference, credit default swaps) and forward contracts on currencies (including non-delivery forwards), interest rates, transferable securities, a basket of transferable securities, indices (such as on commodities, precious metals, volatility, etc.) or UCIs.

Derivatives (including but not limited to futures, options, forwards, credit default swaps and total return swaps) and structured instruments may be used to implement the investment strategy for hedging purposes and for the efficient management of the portfolio.

Structured products and derivatives may for example be used to implement the following strategies:

- Selling or purchasing index or single bond CDS in order to generate a long exposure to that index or bond credit risk or for hedging purposes
- Purchasing or selling bond index or interest rate futures or options and interest rate swaps in order to generate an exposure to that index or bond and its specific duration segment or for hedging purposes
- Purchasing credit linked notes to gain exposure to a specific bond or basket of bonds

Additional Investment Restrictions

The Sub-Fund may be leveraged up to 100% through derivatives linked to currencies, interest rates or credit.

Currency

The Sub-Fund may use currency derivatives such as forwards, futures options or swaps for hedging purposes, to reallocate currency exposures as well as to take currency bets. In relation to the latter, the Sub-Fund may generate up to 30% leverage.

The Sub-Fund may have a non-USD currency exposure of up to 30% of its net assets.

Debt (interest rate and credit)

The Sub-Fund may use interest rate and bond futures, interest rates swaps and credit default swaps for duration and credit risk management. The use of such derivatives may result in up to 100% leverage.

Sub-Fund Specific Risk Factors

Investors should read the risk factors in the main part of the Prospectus and more particularly the following risk factors: "Investments in Fixed Income Securities", "Investments in High Yield Securities", "Investments in Asset-Backed Securities and Mortgage-Backed Securities", "Contingent Convertible Fixed Income Instruments" as well as "Investments in Emerging Countries".

4. Investment Manager of the Sub-Fund

The Management Company has appointed Green Ash Partners LLP, 11 Albemarle Street, London, W1S 4HH, United Kingdom, as Investment Manager of the Sub-Fund. For this purpose, an agreement was signed which may be terminated at any time by either party subject to a three months' notice.

5. Valuation Day

The net asset value of every share class in the Sub-Fund is calculated as at each Business Day.

6. Deadline for receipt of subscription, redemption and conversion orders

16:00 (Luxembourg time) one Business Day before the relevant Valuation Day.

7. Value date for receipt of the subscription price and payment of the redemption price for shares

The subscription price for each share must reach the Depositary Bank two Business Days following the applicable Valuation Day.

The redemption price for each share will, in principle, be paid to the shareholder within three (3) Business Days from the applicable Valuation Day.

8. Classes of Shares

The Sub-Fund issues Class R and I capitalisation ("cap.") and distribution ("dist.") shares in such currencies as specified below:

R cap. USD	I cap. USD
R H cap. EUR	I H cap. EUR
R H cap. CHF	I H cap. CHF
R H cap. GBP	I H cap. GBP

All share classes denominated in a currency other than the reference currency of the Sub-Fund will be hedged ("H") against this reference currency. Investors should consult Section VIII "Hedged Classes" of this Prospectus.

Class R shares are available to all investors. Class R shares shall be subject to a minimum initial subscription and minimum holding amount of EUR 100,000 (or the equivalent in another currency).

Class I shares are reserved to Institutional Investors. Class I shares shall be subject to a minimum initial subscription and holding amount of 1'000'000 USD (or equivalent in another currency). There is no minimum subsequent subscription amount.

9. Distribution policy

It is anticipated that the capitalisation shares issued in this Sub-Fund will not distribute any dividends.

10. Subscription, redemption and conversion fees

A subscription fee of up to 5% of the Net Asset Value per share subscribed may be charged in relation to Class R and I shares for the benefit of the financial intermediaries and other persons involved in the distribution of shares.

No redemption or conversion fee shall be charged for Class R or I shares.

11. Management Fee, Investment Management Fee, Central Administration Fee and Depositary Bank Fee

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 1.50% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.85% p.a. (plus any applicable taxes, if any) for Shares of Classes I, subject to a minimum fee in the amount of USD 22,000 (each plus any applicable taxes, if any).

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to (i) up to 1.45% p.a. (plus any applicable taxes, if any) for Shares of Classes R and (ii) up to 0.80% p.a. (plus any applicable taxes, if any) for Shares of Class I.

In addition to such management fee, the Central Administrator is entitled to receive a central administration fee paid out of the assets of the Sub Fund for its central administration services up to 0.06%p.a. calculated monthly on the basis of the average Net Asset Value of the respective Class (each plus any applicable taxes, if any), subject to a minimum fee in the amount of USD 30,000 (each plus any applicable taxes, if any).

The Depositary Bank is entitled to receive an annual depositary bank fee paid out of the assets of the Sub Fund for its depositary bank services which is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 0.05% p.a. subject to a minimum fee in the amount of USD 22,000 p.a. (each plus any applicable taxes, if any) plus (ii) a variable amount for transactions depending on the actual number of transactions (plus any applicable taxes, if any) plus (iii) a fixed amount for the services rendered for Depositary Bank monitoring & control of USD 11,000 p.a. (plus any applicable taxes, if any).

The actual fees that are charged shall be disclosed in the respective annual or semi-annual report.

12. Risk Measurement Approach

The global exposure of the Sub-Fund is measured and controlled using the Commitment Approach.

13. SFT Disclosures

This Sub-Fund will not enter into SFT Transactions except total return swaps (for more details please consult section VI, point 9 of the main part of the Prospectus) as defined in the SFT Regulation.

The expected proportion of net assets of the Sub-Fund which will be subject to total return swaps is 10%.
